ABSTRACT

KEYWORDS: keyword1; keyword2; keyword3; up to 5 (**11 font size and separated with semi-colon**)

I. INTRODUCTION (**Title Times New Roman, 12 font size, bold**). Current literature regarding the work subject should be examined and the differences of the said work from the past, similar works should be presented clearly in the introduction section.

II. METHODOLOGY The methodology must be clearly stated and described in sufficient detail or with sufficient references. The author shall explain the research question, describe the research framework, and the methods applied in detail. It should be furthermore highlighted why the research question is relevant to theory and practice, and why the chosen method(s) are appropriate for the problem.

III. DISCUSSION Discuss the results. Put your results in perspective by comparing to other studies or generally accepted knowledge in the field. Criticize your own method and results, for example, with respect to the simplifications made.

IV. CONCLUSIONS Conclusions should include (1) the principles and generalizations inferred from the results, (2) any exceptions, problems or limitations of the work, (3) theoretical and/or practical implications of the work, and (4) conclusions drawn and recommendations.

V. ACKNOWLEDGEMENT Please acknowledge your research grant, organization, scholarship (where relevant).

VI. REFERENCES References should be listed in alphabetical order and presented in a UKM Style format.

VII. BIODATA A biodata of not more than 50 words for each author/s should be included at the end of the manuscript.
