ASSESSMENT OF LEARNING EMPOWERMENT WORKSHOP FOR TVET TRAINERS

Organized by

Program Pemerkasaan Kompetensi Akademik

Siswazah,

Fakulti Kejuruteraan & Alam Bina UKM

INTRODUCTION

Assessment for Learning is important in education and it is one aspect of the process in competency assessment. The implementation of the Competency Based Assessment in vocational schools requires trainers to practice Assessment for Learning. The purpose of the training was to investigate the practice of Assessment for Learning among vocational trainers and to identify the factors that led to such practice.

Assessment is seen positively as a support of student learning, and in assisting the students to bridge the gap between their current achievement and their expected goal. Assessment for Learning recognizes the influence that assessment has on motivation and self-esteem of students, and provides them with constructive feedback. Besides, Assessment for Learning encourages active involvement of students in their learning and it depends on the trainers' diagnostic skills to make it work.

This practice is indeed important to the TVET Program, which supports the national economic transformation agenda in churning out skilled and trained manpower. Actions should be taken to provide a new assessment that emphasizes on mastering knowledge, building intellectual capital, nurturing a culture of progressive attitude, and encouraging the practice of high virtues, ethics, and moral values.

OBJECTIVES

The objectives of this workshop are:

- ✓ To identify the assessment ability among the trainers
- ✓ To enhance and empower the trainers in TVET program assessment methods
- ✓ To introduce the effective assessment methods for TVET program knowledge level assessment.

SCHEDULE

DATE	TIME
1	Computer System Maintenance 1 day
2	Computer System Repair 1, 2, 3, 4 4 days
3	Server Installation 1 day
4	Server Maintenance 1 day
5	Computer Network Connectivity Setup 1 day
6	Self-Efficacy 1 day
7	Personality 1, 2 2 days
8	Mobile Device Configuration 1, 2, 3, 4 4 days
