

CONTENT

Part I CONSERVATION GEOLOGY

1. Conservation Geology of Langkawi Islands
Ibrahim Komoo
2. Geotourism of Langkawi Islands
Ibrahim Abdullah & Marilah Sarman
3. Geotourism Potential at National Parks
Mohd Shafeea Leman
4. Geotourism of the Kinabalu Park
Kadderi Md. Desa & Dana Badang
5. Framework of Conservation and Tourism Geology for Development of Geoscience Information
Marilah Sarman, Dana Badang, Ibrahim Komoo & Kadderi Md. Desa

Part II GEOTOPE DEVELOPMENT

6. The Black Sand of Langkawi Islands
Wan Fuad Wan Hassan
7. The Holocene Sea Level at Tanjung Dendang Island: Malaysian Geological Heritage
Zaiton Harun, Basir Jasin & Kamal Roslan Mohamed
8. Structural Geology of Setul Formation
Zaiton Harun & Ibrahim Abdullah
9. Geomorphology of Dayang Bunting Island, Tuba Island and Singa Besar Island, Langkawi
Juhari Mat Akhir
10. Terrestrial Sediments of National Parks
Kamal Roslan Mohamed
11. Geological Trail of Kuala Chichir-Gunung Gagau, Taman Negara
Mohd. Shafeea Leman, Kamal Roslan Mohamed & Ibrahim Komoo
12. Geomorphology and Geology of Bukit Batu Besar, Taman Negara, Pahang
Mohd. Shafeea Leman, Kamal Roslan Mohamed, Uyop Said, Ibrahim Abdullah, Juhari Mat Akhir & Ibrahim Amnan

13. Menggis Ophiolite: Geological Heritage of Kinabalu Park
Dana Badang
14. Pinausok Gravel: Malaysian Geological Heritage Record of Tilloid Sediment
Marilah Sarman

Part III
SCIENTIFIC NOTE

15. The Geotope of Klang Gates Quartz Ridge Selangor
Ibrahim Komoo & Syafrina Ismail
16. Ancient Oceanic Crust at Baliojong, Tandek, Kota Marudu, Sabah
Felix Tongkul
17. Uncomformity at Kapas Island: A Geological Heritage
Kamal Roslan Mohamed, Che Aziz Ali & Ibrahim Abdullah
18. Redang Floral Fossils Heritage
Kamal Roslan Mohamed, Che Aziz Ali & Mohd Zaidi Mohd Yah
