

KELAS FUNGSI ANALISIS $B(\alpha, \beta)$ DAN BEBERAPA SIFATNYA
(A Class $B(\alpha, \beta)$ of Analytic Functions and Some of Its Properties)

WONG GUAN LOUK & MASLINA DARUS*

ABSTRAK

Dalam makalah ini, kelas fungsi analisis $B(\alpha, \beta)$ diperkenalkan dan beberapa sifat tertentu diperoleh. Syarat tertentu bagi kelas fungsi bakbintang kuat dan cembung kuat peringkat α dalam cakera unit juga diberi.

Kata kunci: fungsi analisis; fungsi bakbintang; fungsi cembung

ABSTRACT

In this article, the class of analytic functions $B(\alpha, \beta)$ is introduced and some specific properties are obtained. Certain conditions for the strongly starlike and strongly convex of order α in the unit disc are also given

Keywords: analytic functions; starlike functions; convex functions
