

In Memoriam

Suhila Elhaddad (1981-2020)

PhD Candidate at the Department of Mathematical Sciences, FST, UKM (2018-2020)

Suhila Elhaddad (P89257) was a PhD student at the Department of Mathematical Sciences, UKM since 2018. She had contributed an article to Journal of Quality Measurement and Analysis (JQMA) in volume 16, issue 1 of 2020, and 10 other articles in various indexed journals such as WOS (Q1, Q2), WOS-ESCI, SCOPUS and others. Her intention to submit the notice of thesis submission in semester 1 of the academic session 2020-2021, was not materialised after being admitted to KPJ hospital in Kajang on the 28th of September 2020 due to lung infections, and later being invited by her Creator after being pronounced dead on the 14th of November 2020. Her remains were safely buried in Libya, her country of birth. Allahyarhamah always hopes that her works will one day benefit others. Most of her works are about operators and q-derivatives.

“May Allah S.W.T forgive her sins and grant her Jannatul-Firdaus.”

Berita Takziah

Suhila Elhaddad (1981-2020)

Calon PhD di Jabatan Sains Matematik, FST, UKM (2018-2020)

Suhila Elhaddad (P89257) adalah pelajar PhD di Jabatan Sains Matematik, UKM bermula dari tahun 2018. Beliau merupakan penyumbang kepada penerbitan dalam Jurnal Pengukuran Kualiti dan Analisis (JQMA), keluaran tahun 2020, jilid 16, keluaran 1. Beliau juga telah menerbitkan lebih 10 artikel lain dalam jurnal berindeks seperti WOS(Q1, Q2), WOS-ESCI, Scopus dan lain-lain. Hasrat beliau untuk menghantar notis dan penyerahan tesis untuk penilaian pada semester 1 sesi akademik 2020-2021 tidak kesampaian kerana telah dimasukkan ke hospital KPJ Kajang akibat jangkitan paru-paru pada 28 September 2020, dan kemudiannya telah dijemput lebih awal oleh yang Maha Esa ke Rahmatullah pada 14 November 2020. Jenazah beliau telah selamat dikebumikan di negara kelahirannya, Libya. Arwah pernah menyatakan hasratnya, iaitu ingin melihat hasil kerjanya suatu hari nanti memberi manfaat kepada orang lain. Hasil kerjanya banyak berkisar mengenai pengoperasi dan terbitan-q.

“Semoga diampuni segala dosa-dosanya dan beliau dikurniai syurga Jannatul-Firdaus.”

Maslina Darus
Ahli Lembaga Penasihat, JQMA
