

Associate Professor Dr. Asrul Mahjuddin Ressang is a highly distinguished academic, researcher, and leader with over 20 years of experience in the Department of Architecture within the Faculty of Engineering and Built Environment. Holding a Doctorate in Architecture from the University of Nottingham, UK, he has established himself as a prominent expert in sustainable architecture and urban habitat. Throughout his career, Dr. Asrul has demonstrated an unwavering commitment to academic excellence, environmental stewardship, and international collaboration.

Key Areas of Impact

Academic Leadership & Curriculum Development: Dr. Asrul has served as the Deputy Dean of Research and Development. His extensive teaching portfolio includes leading the design, development, and accreditation of both Bachelor of Science in Architecture and Master of Architecture curricula. He has also guided academic rigor by serving as internal/external chairman for over 15 thesis defences and seminars.

Professional & Institutional Influence: His expertise is highly sought after by peak professional bodies. He was invited as a non-executive council member for the Malaysian Institute of Architects (PAM) and has been involved with the Accreditation Board of Architects Malaysia (LAM).

International Recognition & Appointments: Dr. Asrul has built a formidable global footprint through several prestigious, sole-Malaysian appointments: Appointed by LAM as the only Malaysian coordinator for the Indonesian Universities Architectural School Validation at Universitas Islam Indonesia (2022). Became the first Malaysian Research University (RU) lecturer to deliver a public lecture at the University of Mongolia during ARCHASIA 2022. Chosen by PAM as the sole Malaysian RU academic joint conference coordinator for the World Architectural Forum (2024). Appointed as the only Malaysian External Examiner and Guest Lecturer at Universitas Hasanuddin, Indonesia (2023–2024), alongside serving as an External Examiner locally for International University Kuala Lumpur (IUKL).

Awards & Accolades: His contributions have been recognized through numerous honors, including the prestigious "Diamond Award" at the British Invention Show, the "Vice Chancellor Prize," the "Excellent Service Award" (2021), and the "Certificate of Excellence Services" multiple times (2006, 2020, 2022).

Conclusion: Dr. Asrul's career is defined by a profound dedication to shaping the future of architecture education. Through his high-level international exchanges, leadership in professional boards, and impactful research, he continues to elevate his department, university, and the nation's standing in the global architectural community.
