Preface

This book is a comprehensive collection of scholarly works that explore recent advancements, innovative approaches, and novel insights in the field of Malaysian education. As the field of educational research continues to evolve, it is essential to keep up with the emerging trends and new perspectives that shape educational practices and policies in Malaysia. These changes have been driven by a growing recognition of the critical role that education plays in shaping the future of individuals and society as a whole.

The chapters in this book address a wide range of topics, spanning various levels of education, from primary to higher education. This book aims to shed light on the current landscape of Malaysian educational research and provide valuable insights for educators, policymakers, and researchers. It is hoped that the ideas presented in this volume will inspire further research, spark conversations, and contribute to the ongoing efforts to enhance educational practices and outcomes in Malaysia.

We extend our heartfelt gratitude to all the contributors who have generously shared their expertise and insights for this book. We also express our appreciation to the editorial team and reviewers for their diligent work in ensuring the quality and rigor of the chapters.

We are deeply grateful to the Faculty of Education, UKM for their funding and support, which made the publication of this book possible.
