RESEARCH PROJECT

Datuk Dr. Anis Yusal Yusoff was the Chairman of the Research Oversight Committee for the Institute of Ethnic Studies (KITA) between 2009-2015.

- He was also the Coordinator of the National Social Cohesion Research Project (PADU) – a research project funded under LRGS for 3 years with a total of RM 3.5 million. (2012-2014)
- Previously Datuk Dr. Anis Yusal was involved in various research projects. Among the important ones, he was the Lead Researcher and Project Leader responsible for building KITA-MESRA--A system for monitoring ethnic relations in the country. MESRA or (Malaysian Ethnic Relations Monitoring System) – is an early warning system to manage potential tension and conflict among the community. Prevailing monitoring projects on ethnic relations in the country tend to focus on the negative aspects of these relations such as ethnic-related grievances and the number of ethnic group conflicts taking place. This project uses a positive indicator based on good governance and quality of life indices as a way to understand the level or quality of ethnic relations in Malaysia.
- He also led a research project funded by the private sector to identify the main pillars of democracy in the country in 2021. Before that he led another economic impact study project in Penggerang which was funded by PETRONAS through the Johor Petroleum Development Corporation in 2018.

| Projek / Project | Tempoh / Period | Peranan / Role |
|--|------------------------|-----------------------|
| Instituting Pillars For A Durable And Thriving Democracy In Malaysia | 10-09-2020→10-03-2021 | Ketua Projek |
| Pengerang Integrated Complex (Pic) Economic Impact Study | 15-02-2018→31-12-2018 | Ketua Projek |

- He was also the Co-Program Leader and Lead Coordinator for the Global Malaysian Studies Network (GMSN) 2020-2022. A program which has a network with universities in Canberra, Wellington, Ohio, Beijing, Hankook, Frankfurt, Cambridge and Paris. The aim of this program was to introduce Malaysian studies at the international level.
- Most recently he was selected by Ministry of Economy to lead a research project on RMK13: Creating a Public Discourse in Malaysia = a RM 2.9 million ringgit research grant.

Among past research activities:

- He has been involved in research related to the field of consumerism during his work with Consumers International (CI).

- He was also involved in the research and construction of the Human Development index during his work with the United Nations Development Program (UNDP).
- While at KITA between 2009-2015 apart from leading the KITA-MESRA project, he was involved in the following projects:
