

INSTITUT ALAM SEKITAR DAN PEMBANGUNAN
INSTITUTE FOR ENVIRONMENT AND DEVELOPMENT

LAPORAN TAHUNAN
ANNUAL REPORT

RASIONAL

Cap ibu jari berwarna hijau menggambarkan sumbangan LESTARI sebagai pusat kecemerlangan dan latihan dalam bidang berkaitan alam sekitar dan pembangunan di Malaysia dan rantau Asia Pasifik. Ianya membuktikan usaha dan pencapaian LESTARI dalam memenuhi aspirasi negara untuk merealisasikan matlamat pembangunan lestari, yang secara intrinsiknya dipaparkan menerusi koleksi foto di kulit buku dan juga dalaman buku.

RATIONALE

The green coloured thumbprint represents LESTARI's contribution of being a renowned centre of excellence and trainings on matters pertaining to environment and development both in Malaysia and the Asia Pacific region. It establishes proof of LESTARI's commitment in fulfilling the aspirations of the nation in realising the goal of sustainable development which are intrinsically pictured through the photographs on the cover as well as within the inside pages.

PROF. TAN SRI DATO' SERI DR. SHARIFAH HAPSAH SYED HASSAN SHAHABUDIN

Naib Canselor / **Vice-Chancellor**

Universiti Kebangsaan Malaysia (UKM)
The National University of Malaysia (UKM)

Assalamualaikum WBT dan Salam Sejahtera.

SAYA mengucapkan tahniah kepada Institut Alam Sekitar dan Pembangunan (LESTARI), di atas kesinambungan menjalankan penyelidikan dan mempelopori pembangunan lestari wilayah sejak penubuhan LESTARI pada 1 Oktober 1994.

Tahniah juga, diucapkan kepada LESTARI kerana telah berjaya mendapat taraf CoE Berpotensi pada 2011. Saya yakin LESTARI akan mampu memperoleh pengiktirafan penuh sebagai pusat kecemerlangan pengajian tinggi (HiCoE) pada awal 2014.

Sebagai sebuah institusi penyelidikan dan pembangunan yang mempelopori pembangunan lestari wilayah, LESTARI telah berjaya melaksanakan pelbagai program. Antaranya adalah Program Sekolah Lestari Anugerah Sekitar pada 2 Oktober 2002 bagi mewujudkan generasi muda yang menghayati dan mengamalkan

budaya pembangunan lestari; Program Bandar Lestari Anugerah Alam Sekitar yang merupakan program penganugerahan kepada pihak berkuasa tempatan yang telah melaksanakan aktiviti pembangunan lestari dan pemuliharaan alam sekitar yang seimbang dari segi pembangunan sosial, ekonomi dan fizikal yang juga telah diiktiraf di peringkat ASEAN, apabila Dewan Bandaraya Kuching Utara telah dinobatkan sebagai pemenang anugerah kitar dua (2007-2008) dan tiga (2009-2010) oleh ASEAN Environmentally Sustainable City Award; serta program eko-relawan yang melibatkan mahasiswa, kakitangan dan alumni UKM sebagai sukarelawan dalam memelihara alam sekitar dan seterusnya berkhidmat kepada masyarakat dengan menggunakan modul yang digubal khas oleh penyelidik yang merangkumi Hutan, Air, Tanah, Tenaga, Udara, Pengurusan Sisa dan Pantai.

Dalam memantapkan lagi tujahan penyelidikan, LESTARI telah

menubuhkan Kumpulan Penyelidikan Pengurusan Kimia (CMRG) yang berhasrat untuk mengukuhkan sistem pengurusan dan governans bahan kimia negara secara bersepadu. CMRG merupakan kumpulan penyelidikan unik yang bekerjasama dengan Kementerian Sumber Asli dan Alam Sekitar untuk menganjurkan Perbincangan Meja Bulat MYNICHE (Malaysian Network for Integrated Management of Chemicals and Hazardous Substance for Environment and Development). Kumpulan ini juga telah dipilih oleh Kementerian Perdagangan Antarabangsa dan Industri (MITI) sebagai sumber rujukan untuk pelaksanaan GHS (Globally Harmonised System of Classification and Labelling of Chemicals) di Malaysia. Di samping itu, CMRG juga bekerjasama dengan agensi antarabangsa seperti UNITAR dan UNIDO untuk melaksanakan kajian yang berkaitan dengan pemantapan sistem pengurusan bahan kimia.

Saya juga mengucapkan selamat berjaya kepada LESTARI yang

Kata Pengantar

NAIB CANSOLOR

FOREWORD BY VICE-CHANCELLOR

kini dalam proses untuk dijemput menjadi Regional Centre of Expertise (RCE), UNESCO untuk Education for Sustainable Development yang merupakan rangkaian dan pertubuhan pendidikan yang digerakkan untuk menyampaikan pendidikan mengenai pembangunan lestari (ESD) kepada masyarakat tempatan dan serantau. RCE bercita-cita untuk mencapai matlamat Dekad PBB Pendidikan untuk Pembangunan Lestari (DESD, 2005-2014), dengan menterjemahkan objektif global ke dalam konteks masyarakat setempat. Keahlian di

peringkat UNESCO ini melengkapkan lagi peranan LESTARI sebagai ahli rangkaian yang mempromosi kelestarian dalam pendidikan siswazah dan penyelidikan ProSPER. Net iaitu rangkaian beberapa institusi pendidikan tinggi terkemuka di Asia dan Pasifik.

Saya yakin, sebagai sebuah universiti penyelidikan, penubuhan institut penyelidikan multidisiplin seperti LESTARI mampu menjadikan UKM sebagai peneraju kepada R&D dalam bidang pembangunan lestari wilayah di rantau ini, khususnya

dalam pembangunan ilmu, modal insan, tadbir urus (governans) serta memberi input saintifik dan teknikal dalam proses penyediaan dasar dan membuat keputusan.

Semoga LESTARI akan terus mempergiatkan kepakaran dan kemahiran para penyelidiknya untuk meningkatkan penyelidikan dalam pembangunan lestari demi kesejahteraan manusia dan alam sekitar di Malaysia dan dunia.

Sekian.

Ucapan perasmian daripada Prof. Datuk Dr. Noor Azlan Ghazali, TNC, Hal Ehwal Akademik dan Pengantarabangsaan / Opening address from Deputy Vice-Chancellor, Academic and International Affairs

Assalamualaikum WBT and Peaceful Greetings.

Congratulations to Institute for Environment and Development (LESTARI), Universiti Kebangsaan Malaysia (UKM) for its continued research and development efforts as well as being the front runner in the regional sustainable development since its inception on 1 October 1994.

LESTARI also deserved the highest commendation on achieving the status of Potential Centre of Excellence in 2011. I am confident that LESTARI would eventually be conferred the Higher Institutions' Centres of Excellence (HiCoE) status in the early 2014.

Numerous programmes pertaining to the regional sustainable development have been successfully conducted by LESTARI, being the affluent institution of research and development in the subject matter. Amongst them were Sustainable Schools Environment Award Programme on 2 October 2002 to generate into being youth that appreciates and cares for the environment on a daily basis; the Sustainable Cities Awards Programme which are awarded to local authorities who make valuable and balanced contributions towards environmental sustainability development and conservation while meeting the social, economic and physical needs of the people. This award programme has also been conducted at the ASEAN level whereby North Kuching City Hall had clinched the awards in the 1st (2007-2008) and 2nd (2009-2010) ASEAN Environmentally Sustainable City Award. Last but not least, the Eco-Volunteers Programme involving undergraduates, staff and alumni

of UKM as volunteers to promote environmentally sustainable practices and subsequently to serve the communities by using the custom-made modules which were formulated by researchers covering Forestry, Water, Soil, Energy, Air, Residue Management and Beaches.

In its effort to further fortify its research thrust, LESTARI has formed the Chemical Management Research Group (CMRG) which aspires to strengthen integratively both the national chemical management and governance system. CMRG is a unique research group that works hand in hand with the Ministry of Natural Resources and Environment (NRE) in organising MYNICHE (Malaysian Network for Integrated Management of Chemicals and Hazardous Substance for Environment and Development) Roundtable Discussions. This group was also chosen by the Ministry of International Trade and Industry (MITI) to serve as the centre of reference for the execution of GHS (Globally Harmonised System of Classification and Labelling of Chemicals) in Malaysia. In addition, CMRG also collaborated with international agencies such as UNITAR and UNIDO to carry out studies in relation to fortification of chemical resources management system.

I would like to wish LESTARI all the best in its quest to be invited to becoming a Regional Centre of Expertise (RCE), UNESCO. RCE is a network of existing formal, non-formal and informal education organisations, mobilised to deliver education for sustainable development (ESD) to local and regional communities. RCEs aspire to achieve the goals

of the UN Decade of Education for Sustainable Development (DESD, 2005-2014), by translating its global objectives into the context of the local communities in which they operate. A membership at the UNESCO level would complement LESTARI's role as a network member that promotes sustainability in postgraduate education and Research (ProSPER. Net) which is a network of several leading higher education institutions in Asia and the Pacific.

I am optimistic that as a research university, the establishment of a multidisciplinary research institute similar to LESTARI, would empower UKM to be the leader in R&D for sustainable development within the region, particularly, in knowledge development, human capital, governance as well as relinquishing scientific and technical inputs in the preparation of policies and decision making processes.

It is to be hoped that LESTARI will continuously stimulate the expertise and skill of its researchers in order to elevate research in sustainable development in the interest of mankind and environment wellbeings both in Malaysia and worldwide.

Thank You.

Prof. Tan Sri Dato' Wira Dr. Sharifah Hapsah Syed Hasan Shahabudin
Naib Canselor | Vice-Chancellor
Universiti Kebangsaan Malaysia

PROF. DR. MAZLIN BIN MOKHTAR

Pengarah / *Director*

Institut Alam Sekitar dan Pembangunan (LESTARI)
Institute of Environment and Development (LESTARI)

Assalamualaikum Warahmatullahi Wabarakatuh.

Salam Hormat dan Salam Sejahtera!

SAYA dan seluruh warga Institut Alam Sekitar dan Pembangunan (LESTARI) ingin merakamkan penghargaan tak terhingga kepada Naib Canselor UKM Yang Berbahagia Profesor Tan Sri Dato' Seri Dr. Sharifah Hapsah Syed Hasan Shahabudin, para Timbalan Naib Canselor, Pendaftar, Bendahari, Ketua Pustakawan, dekan dan warga fakulti, pengarah dan warga institut dan pusat, serta pegawai pentadbiran dan sokongan UKM atas segala kerjasama dalam memantapkan penyelidikan, latihan dan aktiviti LESTARI sepanjang tahun 2012.

Pada 1 Oktober 2012, LESTARI genap berusia 18 tahun. Warga LESTARI menyambut ulangtahun ke-18 ini dengan penuh kesyukuran terhadap pencapaian LESTARI selama ini. Warga LESTARI terus berusaha memenuhi harapan UKM dan negara dengan mempertingkatkan aktiviti penyelidikan bersifat multi-, inter- dan trans-disiplin dalam bidang pembangunan lestari wilayah dalam mengilhamkan harapan, mencipta

masa depan demi kesejahteraan manusia dan alam sekitar di Malaysia dan dunia.

Bersyukur kepada Allah S.W.T kerana LESTARI telah mendapat taraf CoE Berpotensi daripada Kementerian Pengajian Tinggi (KPT) yang disempurnakan oleh YB Dato' Seri Mohamed Khaled Nordin, Menteri Pengajian Tinggi pada 16 Disember 2011 di Putrajaya.

Warga LESTARI terus aktif dalam tiga (3) pusat penyelidikan di LESTARI iaitu Pusat Penyelidikan Sains dan Governans Kelestarian (SGK); Pusat Penyelidikan Kelestarian Alam Sekitar, Ekonomi dan Sosial (KASES) dan Pusat Penyelidikan Langkawi (PPL) melalui aktiviti penyelidikan, pengajaran dan khidmat masyarakat yang disokong enam kumpulan teras penyelidikan iaitu Warisan Geologi Malaysia; Air, Hutan dan Sumber Asli; Bandar Berdayahuni dan Landskap Ekologi; Sosio-ekonomi; Pengurusan Bahan Kimia (MyNICHE); Perubahan dan Adaptasi Ekosistem (MyCLIMATE).

Pada tahun 2012, pencapaian LESTARI sebagai institut penyelidikan disokong oleh dana kebangsaan dan

antarabangsa menerusi 32 projek penyelidikan. Sistem e-Repository Penerbitan UKM 2012 pula telah menerima bahan penerbitan berikut daripada LESTARI iaitu enam (6) buku, 83 kertas jurnal (64 Jurnal ISI/SCOPUS), 14 bab dalam buku terindeks, dan 40 prosiding, 13 kertas seminar/persidangan/teknikal dan 10 penerbitan popular untuk rujukan para ilmuwan, pembuat dasar dan pengurus pembangunan. Jumlah pelajar yang mendaftar di LESTARI pada tahun 2012 adalah seramai 99 orang iaitu 71 orang pelajar peringkat Doktor Falsafah dan 28 orang pelajar Sarjana.

Warga LESTARI juga telah menghadiri 44 mesyuarat utama di luar negara dan 51 mesyuarat utama di dalam negara mengenai pelaksanaan dan penggubalan dasar melalui penyelidikan. Sebanyak 59 aktiviti jangkauan penyelidikan seperti dialog meja bulat, bengkel, simposium dan kursus telah dianjurkan oleh warga LESTARI pada 2012.

Saya yakin dan percaya bahawa kredibiliti, kepakaran dan integriti para penyelidik di LESTARI akan senantiasanya dapat mempertingkatkan pencapaian

UKM dan negara dalam melestarikan alam sekitar dan pembangunan untuk generasi ini dan akan datang. Syabas dan tahniah kepada warga LESTARI atas sumbangan yang telah diberikan dan kejayaan yang dicapai. Semoga LESTARI akan terus berjaya dan cemerlang di hari mendatang. Amin. Insyallah.

Selamat Maju Jaya. Terima kasih.

Assalamualaikum Warahmatullahi Wabarakatuh.

Greetings and good wishes to all! On behalf of fellow LESTARIans, I would like to express my heartfelt gratitude to the Vice-Chancellor of UKM, Yang Berbahagia Prof. Tan Sri Dato' Seri Dr. Sharifah Hapsah Syed Hasan Shahabudin, Deputy Vice-Chancellors, Registrar, Bursar, Head Librarian, deans and faculties' members, directors and members of institutes and centres, as well as the administration officers and support staff of UKM on the cooperation rendered to LESTARI towards its effort

in strengthening its research, trainings and activities throughout year 2012.

On 1 October 2012, LESTARI has marked its 18th year of establishment. On this day, LESTARIans celebrated LESTARI's journey with great thankfulness on all the achievements accomplished so far and further strived to embrace the start of the next chapter in fulfilling UKM's and Malaysia's aspiration towards inspiring future and nurturing possibilities by enhancing the multi-, inter- and trans-discipline research activities in areas of regional sustainable development, for the sake of mankind and environmental wellbeings in Malaysia as well as the world.

We are grateful to Allah Almighty for enabling LESTARI to being selected as a Potential Centre of Excellence, a recognition bestowed by the Ministry of Higher Learning (KPT) through its Minister, YB Dato' Seri Mohamed Khaled Nordin on 16 December 2011 at Putrajaya.

by both national and international fundings through 32 research projects. Subsequently, UKM Publication e-Repository System has received the following publication materials from LESTARI i.e. six (6) books, 83 journals' articles (64 ISI/SCOPUS journals), 14 chapters in books, and 40 proceedings, 13 seminar/conference/technical papers and 10 popular publication as sources of reference for academics, policy makers and development managers. 99 students have registered in LESTARI in 2012, comprising 71 students at Doctor of Philosophy level and 28 students at Masters level.

LESTARIans have also attended 44 high level meetings abroad and 51 high level meetings at home on policy execution and legislation through research. A number of 59 outreach activities such as roundtable dialogues, workshops, symposiums and courses have also been successfully carried out in 2012.

I am confident and believe that the credibility, expertise and integrity of each and everyone of researchers at LESTARI can enhance UKM's and the country's achievement in sustaining the environment and development for the present and future generations. My warmest congratulations to LESTARIans on your contributions towards achieving this success today. May LESTARI continues to be successful and excellent in the future. Amen. God willing.

Best Wishes. Thank You.

Pengenalan / Introduction

LESTARI ditubuhkan pada 1 Oktober 1994 sebagai sebuah institut multidisiplin di bawah struktur Universiti Kebangsaan Malaysia. Penubuhannya memenuhi aspirasi universiti yang diilhamkan semasa Persidangan Bangsa-bangsa Bersatu mengenai Alam Sekitar dan Pembangunan (UNCED) yang berlangsung di Rio de Janeiro, Brazil pada 1992 untuk merealisasikan matlamat pembangunan lestari melalui penyelidikan dan pembangunan keupayaan.

LESTARI adalah sebuah pusat rujukan yang berkaitan dengan isu-isu alam sekitar dan pembangunan. Ia juga membantu pihak kerajaan dalam pembentukan dasar melalui penyelidikan yang menyeluruh dan seimbang serta berfungsi untuk meningkatkan keupayaan sumber manusia melalui latihan kemahiran dan pembangunan bagi pihak kerajaan dan swasta.

The Institute for Environment and Development (LESTARI) was established on 1st October 1994 as a multidisciplinary institute within the structure of Universiti Kebangsaan Malaysia. It fulfils the aspirations of the University, as envisioned by the United Nations Conference on Environment and Development (UNCED) held in Rio de Janeiro, Brazil in 1992 to realise the goal of sustainable development through research and capacity development.

LESTARI is a reference centre involved with environment and development issues. It collaborates with the government in formulating policies based on holistic and balanced research. The development function is directed towards enhancing human resource capacity through skill development and training, for both government and private sectors.

Visi / Vision

LESTARI bertekad menjadi pusat kecemerlangan dalam bidang penyelidikan dan latihan berkaitan alam sekitar dan pembangunan yang terunggul di Malaysia dan di rantau Asia Pasifik.

LESTARI aims at being a renowned centre of excellence in research and training on matters pertaining to environment and development in Malaysia and the Asia Pacific.

Misi / Mission

- Sebagai pusat tumpuan, menjalankan penyelidikan multidisiplin dan terkamir dalam bidang alam sekitar dan pembangunan.
- Sebagai penggerak utama dalam proses mempengaruhi dasar, membangunkan keupayaan bagi mencapai hasrat pembangunan lestari.
- Sebagai pusat rujukan, menangani isu berkaitan kelestarian pembangunan.
- As a focal point, conducting multidisciplinary and integrated research in balancing trade-offs between environment and development.
- As a primary mover in influencing policy, build capacity to meet the aspirations of sustainable development.
- As a reference point, addressing issues pertaining to sustainability in development.

Pusat Penyelidikan / Research Centres

- Pusat Penyelidikan Sains dan Governans Kelestarian (SGK)
- Pusat Penyelidikan Kelestarian Alam Sekitar, Ekonomi dan Sosial (KASES)
- Pusat Penyelidikan Langkawi (PPL)
- Research Centre for Sustainability Science and Governance (SGK)
- Research Centre for Environmental, Economic and Social Sustainability (KASES)
- Langkawi Research Centre (PPL)

Kumpulan Teras / Core Groups

- Warisan Geologi Malaysia
- Air, Hutan dan Sumber Asli
- Bandar Berdayahuni dan Landskap Ekologi
- Sosio-Ekonomi
- Pengurusan Bahan Kimia (MyNICHE)
- Perubahan dan Adaptasi Ekosistem (MyCLIMATE)
- Geological Heritage of Malaysia
- Water , Forests and Natural Resources
- Liveable Cities and Landscape Ecology
- Socio-economic
- Chemical Management (MyNICHE)
- Ecosystem Change and Adaptation (MyCLIMATE)

Langkawi, Malaysia

Program yang Ditawarkan / Programmes Offered

- Doktor Falsafah Alam Sekitar dan Pembangunan
- Sarjana Sains
- Sarjana Sastera
- Doctor of Philosophy in Environment and Development
- Master of Science
- Master of Arts

Bidang Penyelidikan / Research Fields

Doktor Falsafah

- Kajian Dasar Alam Sekitar dan Pembangunan
- Pengurusan Ekosistem Bandar
- Pemuliharaan Alam Sekitar
- Pengurusan Kepelbagaian Biologi

Sarjana Sains

- Alam Sekitar dan Pembangunan
- Pengurusan Ekosistem Bandar
- Pemuliharaan Alam Sekitar
- Pengurusan Kepelbagaian Biologi

Sarjana Sastera

- Alam Sekitar dan Pembangunan
- Pengurusan Ekosistem Bandar
- Kajian Dasar Alam Sekitar dan Pembangunan

Doctor of Philosophy (PhD)

- Policy Study of Environment and Development
- Urban Ecosystem Management
- Environmental Conservation
- Biological Diversity Management

Master of Science

Felo DiRaja dilantik oleh Canselor UKM sebagai penghormatan kepada individu yang cemerlang untuk membolehkan kepakaran, pengalaman dan kewibawaan beliau digembeleng bagi meningkatkan citra dan mengukuhkan sumbangan universiti kepada pembangunan negara. Felo DiRaja berfungsi sebagai penasihat untuk mengukuhkan perhubungan korporat universiti di peringkat kebangsaan dan antarabangsa di samping mendukung citra universiti sebagai universiti terkehadapan yang mendahului langkah masyarakat dan zamannya bagi membentuk masyarakat dinamis, berilmu dan berakhlak mulia. Felo DiRaja juga perlu memberi dorongan kepada universiti dalam usaha memartabatkan ilmu melalui penyelidikan, pendidikan dan pengupayaan pembangunan sebagai pemangkin wawasan kelestarian.

Appointed by UKM's Vice-Chancellor, the Royal Fellow is an honorary position given to outstanding individuals with significant expertise, experience and leadership contributions that would boost and enhance university's image and commitment towards nation's building. The Royal Fellow's role is to become an advisor to fortify university's corporate communication at national and international levels whilst supporting and promoting university's image as the frontier of knowledge that transcends its generation in formation of community that are dynamic and knowledgeable with high morality and integrity. The Royal Fellow's role is also to encourage university's initiative to become a sustainable visionary catalyst in heightening knowledge through research, education and empowerment.

Pusat Penyelidikan Sains & Governans Kelestarian (SGK) Research Centre for Sustainability Science & Governance (SGK)

Pengerusi / Chair: Mazlin Mokhtar (Prof. Dr.)

26

PUSAT Penyelidikan Sains dan Governans Kelestarian (SGK) ditubuhkan pada 1 Januari 2006 untuk memperkuatkan lagi sumbangan LESTARI terutamanya terhadap agenda pembangunan kelestarian negara. Skop penyelidikan SGK merangkumi pengkajian berbentuk integratif dan transdisiplin berkaitan isu kelestarian. Menerusi pusat ini, sistem governans yang meliputi dasar, perancangan, perundangan dan pengurusan diterokai sekumpulan pakar yang mahir dalam sains dan governans kelestarian bagi memahami konsep pembangunan lestari berpandukan input saintifik dan kemanusiaan, terutama dalam menilai perubahan ekosistem fizikal dan impak aktiviti disokong oleh tiga kumpulan penyelidikan teras iaitu Kumpulan Pengurusan Kimia, Kumpulan Perubahan dan Adaptasi Ekosistem serta Kumpulan Air, Hutan dan Sumber Asli.

Ahli SGK yang terlibat dalam kumpulan penyelidikan teras aktif menjalankan pelbagai aktiviti dan projek penyelidikan. Dana penyelidikan diperolehi antaranya Dana Berpotensi HiCOE melalui Kementerian Pengajian Tinggi (MoHE), Humid Tropic Centre (HTC) Kuala Lumpur, JPS dan Malaysian Green Technology Corporation. SGK juga menerima dana antarabangsa dari The Swedish International Centre of Education for Sustainable Development (SWEDESH). Projek penyelidikan dijalankan SGK, merangkumi penyelidikan Strategi Pembangunan Lestari Wilayah, Pembentukan Halatuju Pembangunan Lestari Sumber Hutan dan Air, Kesedaran Keselamatan Bahan Kimia di Kalangan Pelajar Sekolah

Menengah, Kemudahterancaman dan Adaptasi Terhadap Bencana Berkasked (Cascading Hazard) serta Analysis of Watershed Sustainability Index (WSI) at Catchment Level for Langat River Basin.

Para penyelidik di bawah Pusat SGK aktif dengan aktiviti pengembangan jaringan dan jangkauan yang memacukan kepada pengukuhan LESTARI sebagai pusat rujukan dalam bidang sains dan governans kelestarian. Pelbagai inisiatif penyelidikan dan kerjasama dan sedia ada telah dilaksanakan. Antara jaringan yang dibina adalah melalui aktiviti MoA bersama Malaysian Green Technology Corporation, serta MoU bersama University Network For Climate and Ecosystems Change

Adaption Research (UN-CECAR), United Nation University dan Pusat Serantau Tropika Lembap Kuala Lumpur (HTCKL), Jabatan Pengairan dan Saliran Malaysia. Manakala aktiviti jangkauan pula, Pusat SGK telah berjaya menganjurkan South East Asia Regional Training for Trainers: Managing Pollution in IWRM, Learning for Change Workshop: Education for Sustainable Development in Malaysia dan Dato' Ismail Awang Forestry Forum.

Sepanjang tahun 2012, penyelidik Pusat SGK juga telah berjaya menghasilkan sebuah buku bertajuk Climate Change and Disaster Risk Reduction, 3 bab dalam buku, 20 artikel jurnal, serta 8 prosiding terindeks. Seramai 16 pelajar pascasiswazah telah berdaftar di bawah pusat ini.

2

The formation of the Research Centre for Sustainability Science & Governance (SGK) on 1 January 2006 was to further strengthen LESTARI's contributions towards the national sustainability development agenda. The research scope of SGK encircles on integrated and transdisciplinary studies related to sustainability issues. Via SGK, the governance systems comprising policy, planning, legislation and management were researched by the science and sustainable governance experts in order to understand the sustainable development concept based on scientific and humanities input, especially in the evaluation of physical ecosystem changes and the impact of human activities on the ecosystem. The activities of SGK are supported by three core groups namely, Chemical Management (MyNICHE) Group, Ecosystem Change and Adaptation

(MyCLIMATE) Group, and Water, Forests and Natural Resources Group.

The SGK team members involved in the research core groups were actively running various research activities and projects. Some of the research fundings that were obtained by SGK were HiCOE Funds through the Ministry of Higher Education (MOHE) along with fundings from Humid Tropics Centre Kuala Lumpur (HTCKL), JPS and Malaysian Green Technology Corporation. An international funding from The Swedish International Centre of Education for Sustainable Development (SWEDESH) was also secured.

The research projects that were managed by SGK in 2012 were Regional Sustainable Development Strategy, Water and Forest Resources Sustainable Development Regulations, Chemical Substance Safety Awareness Amongst Secondary School Students, Endangerment and Adaptation Towards Cascading

1 – 2

Beberapa siri perbincangan mengenai SGK / A series of SGK's discussions

Hazards as well as Analysis of Watershed Sustainability Index (WSI) at Catchment Level for Langat River Basin.

SGK researchers were also heavily involved in various networking expansion and outreach activities so as to accelerate the fortification of LESTARI as a reference centre in the area of sciences and sustainable governance. Many research and collaboration initiatives have been concluded. Amongst the networkings that have been established were through MoA with the Malaysian Green Technology Corporation, as well as MoUs with the University Network For Climate and Ecosystems Change Adaption Research (UN-CECAR), United Nation University, Humid Tropics Centre Kuala Lumpur (HTCKL) and Department of Irrigation and Drainage Malaysia. Whilst in the outreach activities, SGK has successfully organised South East Asia Regional Training for Trainers: Managing Pollution in IWRM, Learning for Change Workshop: Education for Sustainable Development in Malaysia and Dato' Ismail Awang Forestry Forum.

Throughout 2012, SGK researchers have produced 1 (one) book entitled Climate Change and Disaster Risk Reduction, 3 (three) Chapters-in-Books, 20 journals' articles and 8 indexed proceedings. It had also 16 registered post graduate students.

Pusat Penyelidikan Kelestarian Alam Sekitar, Ekonomi & Sosial (KASES) / Research Centre for Environmental, Economic & Social Sustainability (KASES)

Pengerusi / Chair : Ahmad Fariz Mohamed (Assoc Prof. Dr.)

PENUBUHAN KASES pada 1 Januari 2006 bertujuan untuk memberi fokus kepada kajian berbentuk multidisiplin berkaitan bidang kelestarian alam sekitar, sumber asli, ekonomi dan sosial. Skop penyelidikan pusat ini mencakupi penyelidikan terintegrasi mengenai integriti alam sekitar dan pendekatan utilisasi sumber asli secara lestari (Kelestarian Alam Sekitar dan Sumber Asli); sistem ekonomi dan industri yang dapat membantu usaha meningkatkan kesejahteraan sosial dan integriti alam sekitar (Kelestarian Ekonomi dan Industri); dan pembangunan sosial dan pelbagai komuniti berteraskan konsep kelestarian (Kesejahteraan Sosial dan Komuniti).

Objektif penubuhan KASES adalah menjadi pusat kecemerlangan penyelidikan multidisiplin dalam bidang alam sekitar, sumber asli, ekonomi dan sosial untuk bidang sains kelestarian. Pusat ini juga berperanan membantu pentadbiran dan pengurusan alam sekitar dan sumber asli negara dengan memberi input pendekatan bidang asas multidisiplin dan governans bagi menyokong kelestarian alam sekitar dan pembangunan sumber asli negara. Di samping itu, pusat ini juga menyelaraskan aktiviti penyelidikan dan pembangunan, pembangunan keupayaan serta jaringan dan jangkauan berkaitan kelestarian alam sekitar, sumber asli, ekonomi dan sosial.

Bertepatan dengan fungsi dan objektif penubuhan KASES, sepanjang tahun 2012 perkembangan penyelidikan KASES banyak disokong oleh aktiviti

yang dijalankan oleh 2 (dua) kumpulan teras iaitu Ekonomi Alam Sekitar dan Kesejahteraan Komuniti. Namun begitu kumpulan teras lain LESTARI juga menyumbang dalam konteks ilmu terutama dalam bidang kajian yang mengintegrasikan bidang sektoral dalam bentuk multidisiplin dan interdisiplin.

Selain daripada penyelidikan yang dijalankan di bawah naungan kumpulan teras perkembangan KASES juga turut disokong oleh projek kolaborasi dengan dana sumbangan daripada badan dalam negara dan luar negara. Badan dalam negara termasuklah Jabatan Perancangan Bandar dan Desa Selangor (JPBD); Jabatan Alam Sekitar (JAS); Kementerian Sumber Asli dan Alam Sekitar (NRE); Lembaga Pembangunan Pembinaan Malaysia (CIDB) dan Majlis Perbandaran Seremban. Manakala badan luar negara termasuk Economic Research Institute for ASEAN and East Asia - Japan External Trade Organization (ERIA-JETRO); Charles Darwin University, Australia; University of Geneva, Switzerland; University of British Columbia, Canada dan UNESCO. Hasil daripada kolaborasi ini telah berjaya membantu menggubal dan menerbitkan beberapa garis panduan dalam usaha untuk menangani permasalahan alam sekitar yang wujud di negara.

Daripada segi pencapaian pelajar pascasiswazah, 8 pelajar telah berjaya menamatkan pengajian. Seramai 14 orang pelajar siswazah telah berdaftar menjalankan pengajian di bawah KASES pada tahun 2012. Kajian yang dilakukan oleh

pelajar ini dapat membantu dalam merealisasikan objektif penubuhan KASES.

Established on 1st January 2006, the main focus of KASES is on the multidisciplinary research on the field of environment, natural resource, economy and social sustainability. In addition, KASES research scopes encompass integrative research of environmental integrity and sustainable natural resource utilisation approaches (Environment and Natural Resource Sustainability); economic and industrial system to ensure economic resiliency and wellbeing of the community along with environmental integrity (Economy and Industry Sustainability); and social development within the various community based on sustainability concept as the foundation (Social and Community Wellbeing).

The main objective of KASES is to become the centre of excellence for multidisciplinary research integrating fundamental fields of environment, natural resources, economy and social for sustainability science. The centre also plays a supporting role in assisting the country's administration and management of environment and natural resources sustainability through important input of fundamental multidisciplinary fields and governance. Besides managing research and development activities, KASES also emphasizes on capacity building and research output dissemination activities. KASES also develops and enhances research networks and collaborations with local and global research institutes, government agencies and non-

1 - 2

Siri Bengkel Bandar LESTARI - Anugerah Alam Sekitar / Sustainable City - Environment Award Workshop Series

government organisations prioritizing on the field of environment, natural resources, economy and social sustainability.

Activities for KASES in 2012 towards developing its research and development programmes were supported by two core groups namely Environmental Economy and Community Wellbeing. In addition, the other core groups in LESTARI also contributed especially for research which integrates sectoral based knowledge towards a multidisciplinary or interdisciplinary research.

KASES also conducted collaborative research through fundings awarded by national and foreign agencies. The participating national agencies were Department of Town Country and Planning, Selangor (JPBD); Department of Environment Malaysia (JAS); Ministry of Natural Resources and Environment; Construction Industry Development Board Malaysia (CIDB) and Seremban Municipal Council. While the international agencies were Economic Research Institute for ASEAN and East Asia - Japan External Trade Organization (ERIA-JETRO); Charles Darwin University,

Australia; University of Geneva, Switzerland; University of British Columbia, Canada and UNESCO. Results from these collaborative researches enabled KASES and LESTARI to help in establishing and publishing important guidelines for managing environmental problems in the country. As for the academic output, KASES managed to produce 8 students that had graduated while 14 students had registered with KASES as of 2012. The students' research theses will give important inputs in achieving KASES objectives.

Pusat Penyelidikan Langkawi (PPL) Langkawi Research Centre (PPL)

Pengerusi / Chair: Che Aziz Ali (Prof. Dr.)

30

PUSAT Pusat Penyelidikan Langkawi (PPL) mula aktif sejak tahun 2003 dalam aspek penyelidikan sumber asli dan pembangunan di Langkawi. Sebagai sebuah entiti penyelidikan di LESTARI yang bertunjangkan penyelidikan terintegrasi, PPL menjalankan dengan jayanya beberapa aktiviti penyelidikan bersifat menyeluruh dari segi pendekatannya dan melibatkan penyertaan penyelidik dari pelbagai bidang. Usaha menggabungkan penyelidikan secara terintegrasi bagi penyelidik PPL diselaraskan kepada empat program penyelidikan iaitu Sumber Geologi dan Landskap, Sumber Biologi dan Marin, Sumber Budaya dan Tradisi Setempat dan Kesihatan Sekitaran.

PPL mempunyai 14 geran penyelidikan yang masih aktif dan tamat pada 2012 manakala sejumlah 5 geran penyelidikan yang baru telah diperolehi pada tahun 2012. Sepanjang 2012 juga, penyelidik PPL berjaya menerbitkan 9 jurnal terindeks (termasuk 7 jurnal berfaktor impak), di mana 2 daripadanya adalah jurnal kuartil Q1 dan 4 jurnal Q2. Selain itu, 4 makalah jurnal/prosiding tidak terindeks dan 3 buah buku telah turut diterbitkan.

LESTARI melalui PPL telah memeterai penyambungan MoU bersama Lembaga Pembangunan Langkawi (LADA) selain menandatangani MoU

bersama Underwater World (UWL) Langkawi untuk meluaskan kerjasama penyelidikan dan pembangunan di Langkawi. PPL juga telah mengatur langkah meneroka khazanah semulajadi Tasik Langgun yang berpotensi dibangunkan sebagai geotapak baru melalui ekspedisi mini pada 26-30 November 2012 dan di mana hasilnya akan dibentangkan dalam seminar yang akan dianjurkan pada tahun 2013. Pelbagai aktiviti jangkauan telah dilaksanakan bagi menyampaikan maklumat serta berinteraksi dengan komuniti Langkawi terhadap inisiatif yang telah dibangunkan oleh LESTARI di Langkawi. Antaranya termasuklah

Pameran PPL yang telah dijalankan selama lebih sebulan bermula 15 Disember 2011 sehingga 30 Januari 2012 di UWL yang melibatkan pameran pelbagai bahan saintifik, poster serta bahan-bahan penerbitan.

Tahun 2012 juga menyaksikan satu lagi sejarah tercipta untuk PPL. Pada Januari 2012, bangunan PPL di Pantai Kok Langkawi telah siap dibina dan telah diserahkan kepada LESTARI pada tanggal 8 Februari 2012. Dengan keluasan 2,700 m.p.s, ia menempatkan pelbagai kemudahan seperti dewan auditorium, makmal penyelidikan, bangunan pentadbiran, galeri, surau dan juga bangunan asrama lelaki dan wanita. Sejak ia mula beroperasi, PPL terus mengambil langkah proaktif untuk melengkapkan pelbagai prasarana penyelidikan, peralatan dan instrumentasi, kemudahan aktiviti/seminar serta kemudahan penginapan melalui dana instrumentasi yang diberikan oleh UKM berjumlah hampir RM1,000,000.00. Lantaran daripada pelbagai kemudahan yang disediakan ini, PPL telah menjadi hos kepada pelbagai siri seminar, bengkel termasuk seminar siswazah dan juga latihan pembinaan keupayaan oleh beberapa jabatan di UKM. Selain itu, PPL menjadi tumpuan universiti lain seperti UiTM dan USM untuk mengadakan siri-siri program jangkuan mereka. Pelbagai aktiviti penyelidikan yang melibatkan penyelidik mahupun pelajar dari luar negara juga lebih kerap dijalankan dan mendorong kepada pengukuhan jaringan kolaborasi PPL dengan pelbagai institusi terkemuka di peringkat antarabangsa. Pelaksanaan perancangan penyelidikan PPL dilihat lebih mudah dan tersusun dengan adanya kemudahan Kompleks Bangunan PPL ini.

Since 2003, PPL has been actively carrying out research on natural resources and development aspects of Langkawi. As one of the LESTARI's research entities that promote integrative research, PPL has strived to coordinate research activities that are holistic in approach through engaging researchers of diversified backgrounds. The effort to promote integrative research approach amongst PPL researchers was based on four major programmes: Geology and Landscape Resources; Biology and Marine Resources; Cultural and Local Tradition Resources; and Environmental Health.

PPL had 14 research grants that remained active as at end of 2012, out of which five (5) grants were obtained in 2012. Throughout the year, PPL has also successfully published nine (9) indexed journals (inclusive of seven (7) journals of impact factor), of which two (2) of them are from quartile Q1 and four from quartile Q2. Apart from those, four (4) non-indexed journals/proceedings and three (3) books were also produced.

LESTARI through PPL has continually sealed the MoU with Langkawi Development Authority (LADA) and at the same time, has established a new MoU with the Underwater World (UWL) Langkawi, for further enhancing the research and development of Langkawi. Meanwhile, PPL has also begun exploring the potentiality of Langgun Lake to be developed into a new geosite, following the mini expedition that took place on 26-30 November 2012. The findings will be presented in a seminar to be organised sometime in 2013.

Various outreach activities have been organised for the Langkawi communities for interactions and

dissemination of information on the initiatives undertaken by LESTARI for the development of Langkawi. Amongst them was PPL Exhibition that run for more than a month from 15 December 2011 to 30 January 2012 exhibiting a variety of scientific materials, posters as well as published materials.

Year 2012 has also seen a creation of another historic event for PPL when its building along the beach of Kok Langkawi was completed and officially delivered to LESTARI on 8 February 2012. With its size of 2,700 m.p.s, PPL Complex comprises various facilities such as an auditorium hall, research laboratories, administration building, gallery, *surau* and residential blocks for male and female occupancies. Since commencing operations, PPL has proactively undertaken various steps to equip the complex with diversified research infrastructures, equipments and instrumentations, seminars/activities facilities as well as accommodation facilities through the fundings of nearly RM1,000,000.00 which was imparted by UKM. Subsequently, PPL has successfully became host to many seminars and workshops including graduate seminars and expertise development trainings by some UKM departments. Other universities such as UiTM and USM have also opted to carry out their outreach activities in this PPL Complex. Research activities involving international students and researchers have also been frequently managed thus enabling the reinforcement of collaboration networkings between PPL and many other established international institutions. The research planning execution of PPL has indeed been made easier and orderly with the presence of PPL Complex in Langkawi.

DALAM tempoh 16 tahun semenjak perwujudannya pada 1996, kumpulan teras ini telah berganjak dengan begitu banyak dari kajian yang menyelidiki apa itu warisan geologi kepada usaha membawa bersama masyarakat awam menghayati geologi sebagai warisan sepunya. Ini merupakan anjakan daripada penyelidikan saintifik di mana hasilnya berupaya digunakan oleh komuniti atau sekurang-kurangnya mampu memberikan impak positif kepada komuniti. Ini jelas melalui usaha perwujudan geopark yang mengintegrasikan pemuliharaan, pendidikan awam dan peningkatan sosio ekonomi melalui geopelancongan di beberapa kawasan yang telah dikenalpasti di seluruh negara.

Usaha ini turut disokong dengan inisiatif mewujudkan Jawatankuasa Geopark Kebangsaan bersama Kementerian Alam Sekitar dan Sumber Asli yang akan memantau dan membimbing pembangunan geopark kebangsaan seluruh negara. Meskipun masih di peringkat awal perbincangan dan pembangunan Term of Reference (TOR), usaha ini merupakan salah satu langkah kecil untuk terus bekerjasama dengan pelbagai pihak berkepentingan dari peringkat komuniti sehinggalah kepada pengurusan dan pembuat keputusan tertinggi di peringkat kerajaan. Di peringkat dasar, kerjasama dengan pihak berkepentingan dalam hal pengurusan geotapak juga telah memperlihatkan pengukuhan antara penyelidik sumber warisan tabii dengan pihak Lembaga Pembangunan Langkawi (LADA) melalui projek penyelidikan kontrak

yang membangun Pelan Perancangan Langkawi Geopark. Pelan ini yang merujuk secara khusus pencirian, pembangunan dan pengurusan sumber warisan geologi dan landskap lebih berkesan bersama dengan pelbagai aspek geopark yang lain.

Pada masa yang sama usaha pemuliharaan dengan pihak berkepentingan tidak hanya dalam bentuk geopark malah bentuk lain yang bersesuaian turut dilakukan seperti cadangan warisan kebangsaan untuk Permatang Kuarza Klang Gate bersama Jabatan Perancang Bandar dan Desa Selangor; warisan kebangsaan Tanjung Balau dan Batu Layar bersama KEJORA, Geoforest Park Gunung Senyum-Jebak Puyuh yang baru dimulakan dengan Jabatan Perhutanan Semenanjung Malaysia-Pahang dan tapak terpelihara yang dikenalpasti di seluruh negara bersama pihak penyelidik bersama dari Jabatan Mineral dan Geosains Malaysia.

Bagi memantapkan hasil dokumentasi penyelidikan ahli kumpulan tidak ketinggalan menerokai sumber warisan baru yang dikenalpasti semasa ekspedisi saintifik Pusat Penyelidikan Langkawi ke Pulau Langgun. Hasil penyelidikan ini sebahagiannya telah dikongsi bersama pelbagai penyelidik sebelum diterjemahkan dalam bentuk yang lebih mudah kepada pihak awam. Terjemahan saintifik geologi kepada yang lebih mudah difahami bagi setiap geotapak khususnya untuk pelancongan turut diberikan kepada pemandu pelancong di Kepulauan Langkawi melalui siri kursus Geopark.

Di peringkat penyelidikan, pembangunan sebahagian aspek penilaian dan penarafan masih dilakukan dan pemantapan pendekatan pengenalan, pengelasan, pencirian dan penilaian tetap dilakukan. Ini bertujuan untuk mengukuhkan bidang ilmu yang dibangunkan dalam bentuk geologi pemuliharaan, geopelancongan dan juga pendekatan yang lebih luas dan terintegrasi geopark.

In the span of 16 years since its establishment in 1996, this core group has progressed tremendously. It first started its research with examining what was geological heritage was all about and has since then ventured to research that explored numerous means in bringing the local communities to embrace geology as a communal heritage. A shift in the scientific research enables the outcome to benefit the communities at large or at least instils a positive impact to the communities from their engagement. True to the above, efforts in incepting geoparks with an integrated plan that focus on geological heritage conservation, socio economic impact and knowledge transfer activities via geotourism are being carried out. Several places throughout the nation have been identified as potential geoparks.

This endeavor is further supported by the formation of National Geopark Committee under the umbrella of the Ministry of Natural Resources and Environment (NRE) that will monitor and provide guidance in the development of national geoparks throughout the country. Eventhough the foundation of

Langkawi, Malaysia

the committee and the development of Term of Reference (TOR) are still at its inception stage, this effort is certainly seen as one of the small steps towards operating in close synergy amongst the various stakeholders namely, the local community, management and decision makers at the government level. At the policy level, collaborations with the stakeholders on the issues of geoparks management have also been reinforced between the researchers of the natural heritage resources with the Langkawi Development Board (LADA) through the contractual research projects that had developed the Langkawi Geopark Development Plan. This plan which referenced specifically to the characteristics, development and management of geological heritage resources and landscapes is more effective when carried out with other aspects of geoparks.

In any event, conservation efforts with stakeholders are not merely in the form of geoparks. Other appropriate means can also be formulated such as the national heritage proposal for Permatang Kuarza Klang Gate with Town and Country Planning Department of Selangor (JPBDS); Tanjung Balau and Batu Layar National Heritage with South East Johore Development Authority (KEJORA); Gunung Senyum and Gunung Jebak Puyuh Geoforest Parks with Department of Forestry Peninsular Malaysia-Pahang and other identified reserved sites throughout the country with co-researchers from the Minerals and Geoscience Department Malaysia (JMG).

For purpose of strengthening research documentations, this core group has also explored new heritage resources identified during

the scientific expedition of Langkawi Research Centre to Pulau Langgun. Part of the research output has been shared amongst various researchers before translating them into a more user friendly format for the public use. A user friendly geological scientific translation for each geosite is also given to tourist guides in Langkawi during a series of Geopark courses.

Development on parts of assessment and ratings of research are still been consummated up to this time. Identification approaches, classifications, characterisations and assessments of research are continuously been intensified. This is done in order to further solidify the knowledge fields in areas of geological conservation, geotourism, and also to broaden and integrate the approaches for promoting geoparks.

Air, Hutan dan Sumber Asli Water, Forests and Natural Resources

Pengerusi / Chair : Shaharuddin Mohamad Ismail (Dato')

34

AIR, hutan dan sumber asli merupakan komponen penting perkhidmatan ekosistem dalam mencapai pembangunan lestari. Komuniti global telah menunjukkan minat yang besar dalam memastikan setiap negara menuju ke arah pembangunan lestari. Ini bermakna setiap pembangunan negara mestilah seimbang di antara komponen ekonomi, alam sekitar dan sosial. Ketiga-tiga komponen tersebut adalah penting dan penting dalam mencapai pembangunan lestari. Dari segi ini, konsep pembangunan lestari telah lama tersemat dalam proses perancangan pembangunan lestari di Malaysia.

Walau bagaimanapun, potensi kejayaan program pembangunan lestari tersebut amatlah bergantung kepada keberkesanan governans yang akan menggabungkan ketiga-tiga komponen pelestarian ini.

Malaysia mempunyai sumber asli seperti bahan galian, timah, hutan dan air yang menyumbang secara signifikan kepada pembangunan dan kesejahteraan ekonomi. Adalah dijangka sumber asli akan terus memainkan peranan penting dalam usaha negara mencapai taraf negara maju pada tahun 2020.

Penyelidikan kumpulan teras ini memberi tumpuan kepada menjalankan pengajian dan penyelidikan ke atas komponen dan aspek governans yang berkaitan dengan pembangunan lestari sumber asli bagi negara ini.

Pendekatan terbaru yang diambil ialah menangani isu berkaitan dengan pembayaran perkhidmatan ekosistem. Ini adalah penting untuk kehidupan manusia yang mendapat faedah daripada alam sekitar. Faedah ini jarang diberi perhatian.

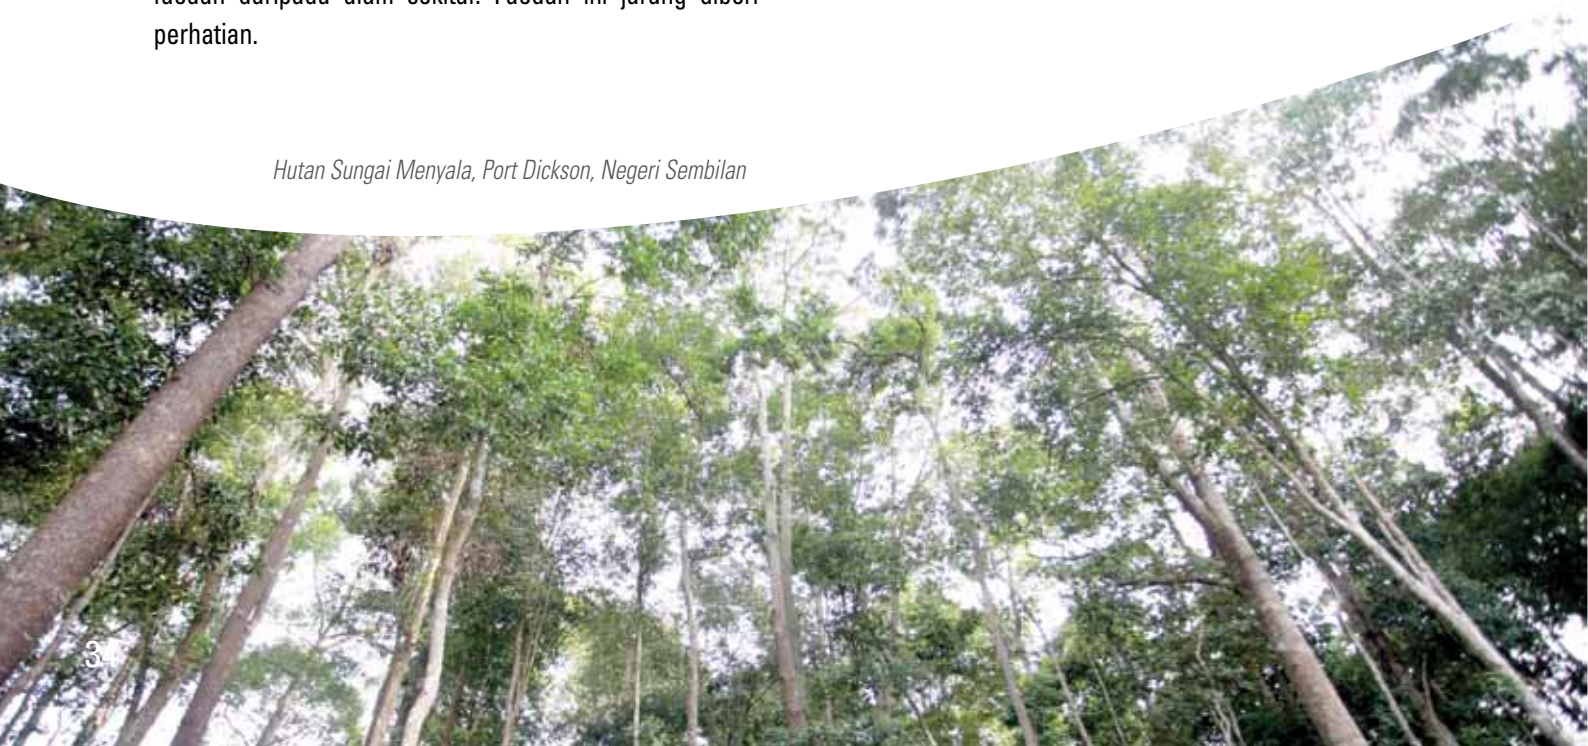

Water, forests and natural resources are vital components of ecosystem services in achieving sustainable development. Global communities have shown great interest in ensuring that countries move towards sustainable development. This means that the country's development must balance between economic, environmental and social components. The concept of sustainable development has long been entrenched in Malaysia's national development planning processes.

However, it must be realised that the success in the potential of sustainable development programmes are very much dependent on the effectiveness of governance which integrates the three pillars of sustainability.

In Malaysia, natural resources namely minerals, tin, forest and water have contributed significantly to the economic development and well-being of the country. It is envisaged that natural resources will continue to play an important role in the nation's quest to achieve developed status by 2020. The research thrust of this core group undertakes comprehensive study and research on various components and aspects of governance related to sustainable development of natural resources for Malaysia.

The current approach undertaken is to address various issues related to payment for ecosystem services particularly water, forest and biodiversity. It is important for human survival that benefits from nature in many ways of which are normally taken for granted.

Kursus Transformasi Kepimpinan Ekorelawan
Eco Volunteers Leadership Transformation Course

20/10/2012, UKM, Bangi

35

Kursus Transformasi Kepimpinan Ekorelawan ini telah dipimpin oleh Dr. Shaker Mustaffa /
The Eco Volunteers Leadership Transformation Course was headed by Dr. Shaker Mustaffa

Bandar Berdayahuni dan Landskap Ekologi Liveable Cities and Landscape Ecology

Pengerusi / Chair: Abdul Samad Hadi (Emeritus Prof. Dato' Dr.)

36

AKTIVITI kumpulan penyelidikan ini secara konsisten dan berterusan meneliti isu-isu yang menyangkut tentang dayahuni bandar yang diterjemahkan kepada dayahuni perumahan dan seumpamanya. Penyelidikan yang dijalankan berteraskan kepada jaluran kerangka menjejak (tracking), menerap (embedding), memupuk (embracing) dan seterusnya membudayakan aspek kelestarian dalam pembangunan bandar di negara ini.

Sehingga kini, penerapan aspek-aspek kelestarian bandar begitu giat dijalankan. Makmal lapangan yang menganjur dari Proton City di Tanjung Malim sehingga ke Linggi di sempadan Negeri Sembilan/Melaka menjadi makmal mega untuk kumpulan ini menjalankan penelitian dan menguji perspektif, konsep, definisi, dan aplikasi yang diambil. Namun secara lebih mendalam dan pada skala yang lebih besar, penelitian berkaitan dengan dayahuni bandar ini diterapkan di Seremban dan bandar-bandar lain di dalam lingkungan makmal mega tadi.

Perolehan geran-geran penyelidikan dari kementerian, universiti dan dana penaja luar merencanakan penyelidikan oleh kumpulan ini. Pemberian geran oleh Kementerian Pengajian Tinggi (pada masa itu), membolehkan kajian mengenai peralihan transisi kelestarian dijalankan di koridor pembangunan bandar yang menganjur dari Kuantan ke Pekan di Pahang. Kerangka, model dan konsep kajian ekosistem yang dijalankan di Lembangan Bernam-Linggi selama ini diterapkan kepada kajian di Pahang ini. Hasil penelitian awal telah dikenalpasti dan laporan kajian

sedang disediakan. Satu persidangan antarabangsa iaitu International Conference on Challenges of Extended Mega Urban Regions; The Changing Face of Southeast Asia and the World sedang diusahakan dan dijadualkan berlangsung pada 19-21 November 2013 nanti.

Kumpulan ini juga terlibat dalam penghasilan Dokumen PPLG adalah hasil usahasama antara LESTARI dan LADA yang dipertanggungjawabkan sebagai penyelarasan pembangunan

Langkawi Geopark dengan pihak Institusi Pengajian Tinggi dalam pengurusan pelaksanaan geopark. Dokumen ini memberi panduan mengenai pewujudan sebuah pelan pengurusan bagi sesebuah geopark. PPLG telah disediakan dengan pendekatan yang holistic, komprehensif dan bekerjasama pelbagai pihak berkepentingan.

1 – 2

Siri Bengkel Program Bandar Lestari - Anugerah Alam Sekitar (Zon Timur)

Workshop on Sustainable City Programme - Environmental Award (Eastern Zone) Series

21-22 /2/2012, Kuantan, Pahang

ministries, universities and external entities heightened the research activities of this group. Grants provided by the Ministry of Higher Education, Malaysia enabled a research relating to sustainability of transition changes be carried out for the city corridor development planning starting from Kuantan to Pekan in Pahang. The framework, model and concepts of ecosystem research incorporated at Bernam-Linggi Basin were employed to the research stints in Pahang. Initial investigation outcome has been identified and a research report is currently been prepared. An international conference entitled "International Conference on Challenges of Extended Mega Urban Regions: The Changing Face of Southeast Asia and the World" is been planned and scheduled to commence on 19-21 November 2013.

This group has also participated in the production of PPLG documentation which is the outcome from the collaboration between LESTARI and LADA, in its capacity as the development coordinator of the Langkawi Geopark with the Higher Education Institutions in the management of geopark implementation. This documentation provides the guidelines in building a management plan for a particular geopark. It has been comprehensively prepared using an holistical approach dan had the involvement of many stakeholders.

The activities of this research group will consistently and continuously delve into issues related to liveable cities which, in turn, can be comparable to liveable houses and equivalent. Research are conducted based on tracking, embedding, embracing and constantly cultivating the sustainable aspects when developing cities in the country.

Up till now, the consolidation of sustainable aspects of cities are actively been administered. Field

laboratories leading from Proton City, Tanjung Malim to Linggi at the border of Negeri Sembilan/Melaka are the mega laboratory for this group to carry out thorough investigations as well as testing of perspectives, concepts, definitions and applications. However, on an in-depth and bigger scale, research relating to liveable cities are managed in Seremban and other cities within the precinct of the mentioned mega field laboratory.

Acquisition of research grants from

KELESTARIAN ekonomi dan sosial merupakan dua komponen penting dalam paradigm pembangunan lestari. Kumpulan teras ini menumpukan kepada isu-isu dan kaedah penyelesaian bagi mengimbangi utilisasi sumber-sumber asli untuk kepentingan kebajikan manusia and ekonomi keseluruhannya. Tema dan persoalan-persoalan seperti hubungkait pertumbuhan ekonomi dan alam sekitar, keselamatan makanan dan pertanian lestari, kemiskinan dan penghidupan lestari, masyarakat

terpinggir merupakan penyelidikan-penyelidikan yang menjadi fokus kepada kumpulan teras ini. Dalam pada itu, kaedah serta instrumen-instrumen bagi menilai sumber-sumber asli diterokai dan diaplikasi di dalam penyelidikan-penyelidikan yang dijalankan.

Economic and social sustainability are the main pillars in sustainable development paradigm. This core group focuses on the issues and solution of harmonizing the utilization

of natural resources for the benefits of the human welfare and economics as a whole. Researches under this core group are economic growth and environmental nexus, food security and agricultural sustainability, poverty and sustainable livelihood and marginalized community. Methods and instruments for assessing natural resources are explored and applied in conducting the research.

Malam Gemilang LESTARI LESTARI's Gala Nite

20/6/2012, Cyberview Lodge, Cyberjaya

1 - 4

Warga LESTARI diraikan dalam Majlis Makan Malam / Rewarding the LESTARlans for work well done during the LESTARI's annual dinner

Pengurusan Bahan Kimia (MyNICHE) Chemicals Management (MyNICHE)

Pengerusi / Chair: Mazlin bin Mokhtar (Prof. Dr.)

40

KUMPULAN Penyelidikan MyNICHE telah diwujudkan pada 16 Jun 2005 untuk menjalankan kajian yang berkaitan dengan pengurusan bahan kimia di Malaysia serta di rantau Asia Tenggara. Objektif utama Kumpulan Penyelidikan MyNICHE adalah untuk menjalankan penyelidikan multidisiplin dalam bidang pengurusan bahan kimia; memberi sumbangan kepakaran serta input teknikal kepada pihak berkepentingan terutamanya dalam proses membuat keputusan dan membangunkan

dasar; serta membangunkan kapasiti sumber manusia dalam menangani isu berkaitan dengan pengurusan bahan kimia. Kumpulan Penyelidikan MyNICHE telah menganjurkan Rundingan Meja Bulat MyNICHE (RTD-MyNICHE) atas kerjasama dengan Bahagian Pengurusan Alam Sekitar dan Perubahan Iklim, Kementerian Sumber Asli dan Alam Sekitar (NRE), di mana RTD-MyNICHE ini merupakan satu jaringan yang melibatkan pihak berkepentingan termasuk kerajaan, industri, NGO, akademik dan institut

penyelidikan untuk membincangkan isu-isu berkaitan dengan pengurusan kimia, contohnya pelaksanaan Strategic Approach to International Chemicals Management (SAICM) dan Globally Harmonised System of Classification and Labelling of Chemicals (GHS) di Malaysia.

Rundingan Meja Bulat MyNICHE yang kelapan (i.e. 8th RTD-MyNICHE) telah diadakan pada 18 Oktober 2011 dan ia dianjurkan atas kerjasama antara Kumpulan Penyelidikan MyNICHE dan

Bahagian Pengurusan Alam Sekitar dan Perubahan Iklim (Kementerian Sumber Asli dan Alam Sekitar). Tema untuk 8th RTD-MyNICHE adalah “Synergising Local Initiatives and International Obligations for The Future We Want” dan pihak berkepentingan daripada pelbagai disiplin dan sektor, termasuk daripada kerajaan, pihak swasta, NGO dan akademik telah mengambil bahagian dalam 8th RTD-MyNICHE. Untuk dana penyelidikan pula, Kumpulan Penyelidikan MyNICHE telah menerima satu dana antarabangsa daripada UNIDO (United Nations Industrial Development Organization) untuk menjalankan penyelidikan yang berkaitan dengan ratifikasi Konvensyen Stockholm. Di

samping itu, Kumpulan Penyelidikan MyNICHE juga mendapat dana khas melalui HiCoE berpotensi LESTARI untuk menjalankan penyelidikan keselamatan makmal di sekolah-sekolah menengah di Malaysia.

MyNICHE Research Group was established on 16 June 2005 with the aims to conduct research pertaining to chemicals management in Malaysia and Southeast Asia. Objectives of MyNICHE are to conduct multidisciplinary research in the field of chemicals management; to provide expertise supports and technical inputs for stakeholders in order to assist them in the process of making decisions and establishing policies; and to develop trained human capital in addressing issues pertaining to chemicals management.

The MyNICHE Research Group and Environmental Management and Climate Change Division, Ministry of Natural Resources and Environment (NRE) have jointly organized the Round Table Dialogue of MyNICHE (RTD-MyNICHE), where the RTD-MyNICHE is a network that supports various stakeholders such as government, industry, NGO, academic and research institutes in managing chemicals and hazardous substances, including the implementation of Strategic Approach to International Chemicals Management (SAICM) and GHS (Globally Harmonised System of Classification and Labelling of Chemicals) in Malaysia

The 8th Round Table Dialogue of MyNICHE (i.e. 8th RTD-MyNICHE) was held on October 18, 2012, where it was jointly organized by MyNICHE Research Group and Environmental Management and Climate Change Division, Ministry of Natural Resources and Environment (NRE). The theme for 8th RTD-MyNICHE is “Synergising Local Initiatives and International Obligations for The Future We Want” and stakeholders from multi-disciplines and multi-sectors, such as representatives from government, private sector, NGOs and academia have participated in the 8th RTD-MyNICHE. In 2012, the MyNICHE Research Group obtained research grant from UNIDO (United Nations Industrial Development Organization) to carry out research pertaining to ratification of Stockholm Convention. Beside that, MyNICHE Research Group also being awarded a research grant under the framework of Potential HiCoE LESTARI to conduct research on chemical safety at secondary school laboratories in Malaysia.

Perubahan dan Adaptasi Eko Sistem (MyCLIMATE) Ecosystem Change and Adaptation (MyCLIMATE)

Ketua/Head: Joy Jacqueline Pereira (Prof. Dr.)

42

KUMPULAN MyCLIMATE telah ditubuhkan pada 2007 hasil daripada Kajian Dasar Perubahan Iklim dengan sokongan biayaan daripada Kementerian Sumber Asli dan Alam Sekitar Malaysia (NRE) di bawah Rancangan Malaysia ke-9. MyCLIMATE bermatlamat untuk menyokong NRE, iaitu Titik Tumpuan Tempatan di Pentas “United Nations Framework Convention on Climate Change (UNFCCC)” dan “Intergovernmental Panel on Climate Change (IPCC)” dengan menjalankan aktiviti penyelidikan berkaitan dengan iklim di peringkat kebangsaan, negeri dan tempatan. Sekretariat MyCLIMATE disokong NRE dan Institut Kajian Bencana Asia Tenggara (SEADPRI-UKM).

MyCLIMATE merupakan jaringan kumpulan penyelidik dari pelbagai universiti, agensi kerajaan, pertubuhan yang berdedikasi menjalankan penyelidikan ber-kenaan isu perubahan iklim untuk menyokong pencegahan bencana dan pembangunan lestari. Penyelidik Kumpulan Perubahan Iklim dan Adaptasi (OUP-2012-113) merupakan ahli teras MyCLIMATE. Fokus MyCLIMATE adalah penyelidikan, pendidikan, dan penyediaan khidmat nasihat yang berteraskan lima tema iaitu: Adaptasi Perubahan Iklim dan Pengurangan Risiko Bencana; Dasar Perubahan Iklim dan Keselamatan Negara; Perubahan Iklim dan Kesihatan Awam; Perubahan Iklim dan Kelestarian Sumber; dan Pendidikan dan Penglibatan Komuniti dalam Perubahan Iklim dan Pencegahan Bencana.

Aktiviti penyelidikan MyCLIMATE pada tahun 2012 telah dibiayai oleh

Asia Pacific Network for Global Change (APN), NRE, dan juga dana Penyelidikan UKM. Empat projek baru telah dijalankan oleh Kumpulan Perubahan Iklim dan Adaptasi pada tahun 2012 iaitu “Assessment of Climatic Hazards for Adaptation Response at the Local Level in Peninsular Malaysia” (RM100,000.00), “Establishment of National Platform and Action Plan for Disaster Risk Reduction” (RM48,000.00), “Adaptation Roadmap for Malaysia” (RM400,000.00) dan “Vulnerability and Adaptation Towards Cascading Disaster” (RM165,000.00). Ahli MyCLIMATE telah menghasilkan 21 jurnal terindeks, 2 jurnal tidak terindeks, 5 prosiding tidak terindeks, 2 buah buku, 9 orang siswazah sarjana dan 2 orang siswazah Doktor Falsafah (PhD).

Aktiviti jangkauan MyCLIMATE adalah termasuk Forum SEADPRI 2012 bertajuk “Advancing Disaster Prevention Climate Change Science and Policies” (14 Mei, 2012), “Workshop on Natural Disaster and Climate Change in Asia” (5-7 November, 2012) dan “Workshop on Natural Hazards and Climate Change Adaptation” (9 November 2012).

Kumpulan penyelidik MyCLIMATE telah membentangkan hasil kajian mereka di seminar, persidangan dan bengkel di peringkat kebangsaan dan antarabangsa. Melalui SEADPRI-UKM, MyCLIMATE turut terlibat secara aktif dalam “IPCC Fifth Assessment Report (IPCC-AR5)” dan “IPCC Special Report on Managing the Risks of Extreme Events” and “Disasters to Advance Climate Change Adaptation (SREX)”.

MyCLIMATE was established in 2007 as an output of the Policy Study on Climate Change that was funded by the Ministry of Natural Resources and Environment (NRE) under the Ninth Malaysian Plan. The aim of MyCLIMATE is to support NRE, the National Focal Point for the United Nations Framework Convention on Climate Change (UNFCCC) and Intergovernmental Panel on Climate Change (IPCC) through climate change-related research conducted at local, state and national levels. The secretariat of MyCLIMATE is supported by the NRE and Southeast Asia Disaster Prevention Research Institute (SEADPRI-UKM).

MyCLIMATE is a network of researchers from various universities, government agencies and organisations dedicated to conducting research on climate change that will support disaster prevention and sustainable development. Researchers of the Climate Change and Adaptation Group (UKM-OUP-2012-113) of UKM are the core members of MyCLIMATE. The focus of MyCLIMATE is on research, education and provision of advisory services in the following five thematic areas: Climate Change Adaptation and Disaster Risk Reduction; Climate Change Policy and National Security; Climate Change and Public Health; Climate Change and Sustainable

Resources; as well as Education and Community Participation in Climate Change and Disaster Prevention.

MyCLIMATE research activities in 2012 were funded by the Asia Pacific Network for Global Change (APN), NRE, as well as UKM research funds. Four new projects were conducted by the Climate Change and Adaptation Group in 2012. These are entitled "Assessment of Climatic Hazards for Adaptation Response at the Local Level in Peninsular Malaysia" (RM100,000.00), "Establishment of National Platform and Action Plan for Disaster Risk Reduction" (RM48,000.00), "Adaptation Roadmap for Malaysia" (RM400,000.00) and "Vulnerability and Adaptation towards Cascading Disaster" (RM165,000.00). Members of MyCLIMATE produced

21 indexed journals, 2 non-indexed journal, 5 non-indexed proceedings, 2 books, 9 master graduates and 2 doctoral graduates (PhD).

MyCLIMATE outreach consisted of the SEADPRI 2012 Forum titled "Advancing Disaster Prevention Climate Change Science and Policies" (14 May, 2012), "Workshop on Natural Disaster and Climate Change in Asia" (5-7 November 2012) and "Workshop on Natural Hazards and Climate Change Adaptation" (9 November 2012). Researchers of MyCLIMATE presented their research outcomes in seminars, conferences and workshops at national and international levels. MyCLIMATE, through SEADPRI-UKM, also participates actively in the IPCC Fifth Assessment Report (IPCC-AR5) and IPCC Special Report on Managing the Risks of Extreme Events and Disasters to Advance Climate Change Adaptation (SREX).

Nama Projek / Name of Projects		Kod Projek / Project Codes	Jumlah Dana / Funding Amount	Tempoh / Duration
Biaya/Funding: Kementerian Pengajian Tinggi / Ministry of Higher Education				
1	Greening The Economy: Impacts of Selected Greening Initiatives on Sustainable Livelihood and Socio- Economic Wellbeing of the Lower Income Households in Malaysia <i>Ketua Projek/Project Head: Chamhuri Siwar (Emeritus Prof.)</i>	FRGS/1/2012/SS07/UKM/01/3	RM50,000	4/4/2012-3/4/2014
2	Food Security Assessment for the Flood-Affected Victim: Vulnerability, Coping Strategy and Livelihood <i>Ketua Projek/Project Head: Rospidah Ghazali (Dr.)</i>	FRGS/1/2012/SS07/UKM/03/1	RM50,000	2012-2014
3	Preference and Accessibility to Goods and Services in Shaping a Livable City in the Linggi to Bernam Mega-Urban Region: Case Seremban Municipality <i>Ketua Projek/Project Head: Abdul Samad Hadi (Emeritus Prof. Dato' Dr.)</i>	FRGS/1/2012/SSI11/UKM/01/1	RM40,000	2012-2014
4	Development of a Grounded Socio-Spatial Urbanization Theory for Malaysia's Secondary City Region <i>Ketua Projek/Project Head: Abdul Hadi Harman Shah</i>	FRGS/1/2012/SSI11/UKM/02/2	RM50,000	2012-2014
5	Projek Pelan Strategi Pembangunan Lestari Wilayah / Project Plan for Regional Sustainable Development Strategy <i>Ketua Projek/Project Head: Halimaton Saadiah Hashim (Datin Paduka Dr.)</i>	XX-02-2012	RM400,000	2012-2013
6	Pembentukan Hala Tuju Pembangunan Lestari Sumber Hutan dan Air di Negeri Pahang / Strategic Formation on Sustainable Development of Forestry and Water Resources in Pahang <i>Ketua Projek/Project Head: Shaharuddin Mohamad Ismail (Dato')</i>	XX-03-2012	RM165,000	2012-2013
7	Transisi Ke Arah Kelestarian: Menilai Perubahan Pembandaran di Lembangan / Sungai Pahang / Transition Towards Sustainability: Assessing the Urbanization Changes at Pahang River Basin <i>Ketua Projek/Project Head: Abdul Samad Hadi (Emeritus Prof. Dato' Dr.)</i>	XX-04-2012	RM165,000	2012-2013
8	Kepenggunaan Hijau: Kajian Kesedaran, Pengetahuan, Perlakuan dan Kesanggupan Membayar untuk Produk Hijau dalam Wilayah Ekonomi Pantai Timur (ECER) / Green Consumerism: Research on the Awareness, Knowledge, Actions and Willingness To Pay for Green Products in the East Coast Economic Region (ECER) <i>Ketua Projek/Project Head: Chamhuri Siwar (Emeritus Prof.)</i>	XX-05-2012	RM165,000	1/4/2012-31/12/2013
9	Kesedaran Keselamatan Bahan Kimia di Kalangan Pelajar Sekolah Menengah / Chemical Safety Awareness Amongst Secondary School's Students <i>Ketua Projek/Project Head: Goh Choo Ta (Dr.)</i>	XX-06-2012	RM165,000	2012-2013
10	Kemudahterancaman dan Adaptasi Terhadap Bencana Berkasked / Threatening and Adaptation Towards Cascading Hazards <i>Ketua Projek/Project Head: Joy Jacqueline Pereira (Prof. Dr.)</i>	XX-07-2012	RM165,000	2012-2013
11	Kepelbagaian Sumber Warisan Geologi Lembangan Sungai Pahang dan Potensinya untuk Geopelancongan dan Pembangunan Geopark / Multi Geological Heritage Resources of Pahang River Basin and Its Potential for Geotourism and Geopark Development <i>Ketua Projek/Project Head: Mohd Shafeea Leman (Prof. Dr.)</i>	XX-08-2012	RM165,000	2012-2013
12	Kajian Pembangunan Wilayah Delta Sarawak / Research on the Development of Sarawak Delta Region <i>Ketua Projek/Project Head: Ibrahim Komoo (Emeritus Prof. Dato' Dr.)/Che Aziz Ali (Prof. Dr.)</i>	XX-09-2012	RM165,000	2012-2013

Nama Projek / Name of Projects		Kod Projek / Project Codes	Jumlah Dana / Funding Amount	Tempoh / Duration
13	Pemindahan Teknologi dan Ilmu Pengetahuan Tentang Pemetaan Kemiskinan di Wilayah Ekonomi Pantai Timur (ECER): Kerjasama Pemindahan Ilmu oleh LESTARI UKM kepada Unit Penyelarasan Pelaksanaan (ICU) / Technology and Knowledge Transfer on Poverty Mapping at East Coast Economic Region (ECER): Joint Venture of Knowledge Transfer by LESTARI UKM to Implementation Coordination Unit (ICU) (<i>Geran Knowledge Transfer Program</i>) <i>Ketua Projek/Project Head: Chamhuri Siwar (Emeritus Prof.)</i>	PHI-2012-04	RM117,875	17/7/2012-16/7/2013
14	Pemindahan Ilmu Transdisiplin untuk Kelestarian dan DayaHuni / Transdisciplinarity Knowledge Transfer for Sustainability and Livability (<i>Geran Knowledge Transfer Program</i>) <i>Ketua Projek/Project Head: Shaharudin Idrus</i>	PHI-2012-03	RM111,725	2012-2013
15	Extended Mega-Urban Region (EMUR) In Malaysia: Challenges To Sustainability <i>Ketua Projek/Project Head: Chamhuri Siwar (Emeritus Prof.)</i>	ERGS/1/2012/SSI12/UKM/01/1	RM50,000	2012 - 2015
16	Analysis of Watershed Sustainability Index (WSI) at Catchment Level for Langat River Basin <i>Ketua Projek/Project Head: Abdul Samad Hadi (Emeritus Prof. Dato' Dr.)</i>	ERGS/1/2012/STWN01/UKM/02/4	RM89,000	2012 - 2015
17	Exploring Sustainability Concept, Prospect, Methodologies and Processes: The Complexity and Ecosystem Connectivity of Malaysia's Tidal Wetlands <i>Ketua Projek/Project Head: Dr. Ahmad Aldrie Amir (Dr.)</i>	ERGS/1/2012/STWN01/UKM/03/2	RM87,200	2012 - 2015
18	Pemantapan Aspek Kualiti Pengurusan Penyelidikan Melalui Proses Pengukuhan Sistem Pengurusan Data dan Inventori Secara Sistematis / Stabilizing the Quality Aspects of Research Management Through Strengthening the Data and Inventory Management System's Process Systematically <i>Ketua Projek/Project Head: Nik Mohd Noor Faizul Md Saad</i>	XX-14-2012	RM75,000	Ogos 2012 - Julai 2013
Biaya/Funding: Geran Penyelidikan Jangka Panjang (LGRS) / Long Term Research Grant				
19	Development of a Model for Water Governance of Selected Urban Areas in Langat Basin <i>Ketua Projek/Project Head: Mazlin bin Mokhtar (Prof. Dr.)</i>	XX-11-2012	RM30,000	Julai 2012- Julai 2014
20	Sosio Economic Impact Aspect of Water Security and Sustainable Livelihood: On Selected Urban Agriculture in Malaysia <i>Ketua Projek/Project Head: Chamhuri Siwar (Emeritus Prof.)</i>	XX-12-2012	RM30,000	1/7/2012-30/6/2014
Biaya/Funding: Dana Universiti Penyelidikan / Research University Funds				
21	Dana Lonjakan Penerbitan (DLP) / Publication Spurring Funds (DLP) <i>Ketua Projek/Project Head: Mazlin bin Mokhtar (Prof. Dr.)</i>	UKM-DLP-2011-083	RM100,000	2012
Biaya/Funding: UNITEN				
22	Roadmap Adaptasi untuk Malaysia / Roadmap Adaptation for Malaysia <i>Ketua Projek/Project Head: Joy Jacqueline Pereira (Prof. Dr.)</i>	XX-07-2011	RM400,000	2012 - 2013
Biaya/Funding: ASMA Environmental Consultancy Sdn. Bhd.				
23	Kaedah Pengukuran Punca Pencemaran: Penilaian dan Kemas Kini Garis Panduan Alam Sekitar / Methods on Measuring Causes of Pollution: Assessment and Updating of Environmental Guidelines <i>Ketua Projek/Project Head: Sarah Aziz (Dr.)</i>	XX-01-2012	RM21,600	1/3/2012 - 30/6/2012

Nama Projek / Name of Projects		Kod Projek / Project Codes	Jumlah Dana / Funding Amount	Tempoh / Duration
Biaya/Funding: United Nations Industrial Development Organization (UNIDO)

Program Pasca Siswazah Postgraduate Programmes

50

Program pascasiswazah di LESTARI tertumpu kepada peningkatan ilmu serta pengembangan ilmu baru dalam bidang alam sekitar dan pembangunan. Ijazah Pascasiswazah ditawarkan pada peringkat Sarjana dalam bidang seperti Alam Sekitar dan Pembangunan; Pengurusan Ekosistem Bandar; Pemuliharaan Alam Sekitar; Pengurusan Kepelbagaian Biologi; dan Kajian Dasar Alam Sekitar dan Pembangunan.

Mod pengajian adalah dalam bentuk penyelidikan sahaja dan boleh dilakukan sepenuh atau separuh masa.

The postgraduate programme in LESTARI focuses on strengthening knowledge and pursuing new knowledge in the fields of environment and development. Postgraduate degrees are offered at both Masters and Doctoral levels in the areas of Environment and Development; Urban Ecosystem Management; Environmental Conservation; Biodiversity Management; and Environment and Development Policy Study.

The mode of study is in the form of research only and can be done either on a full-time or part-time basis.

BIDANG PENGAJIAN / FIELDS OF STUDY

Doktor Falsafah Alam Sekitar dan Pembangunan /
Doctor of Philosophy in Environment and Development

- Kajian Dasar Alam Sekitar dan Pembangunan /
Policy Study of Environment and Development
- Pengurusan Ekosistem Bandar /
Urban Ecosystem Management
- Pemuliharaan Alam Sekitar / Environmental Conservation
- Pengurusan Kepelbagaian Biologi /
Biological Diversity Management

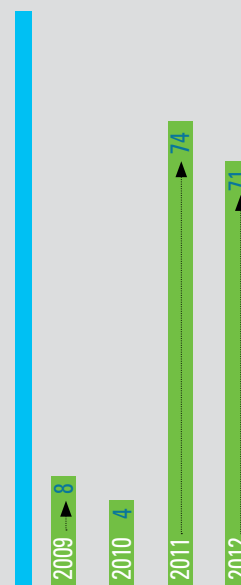

Sarjana Sains / Master of Science

- Kajian Dasar Alam Sekitar dan Pembangunan /
Policy Study of Environment and Development
- Pengurusan Ekosistem Bandar /
Urban Ecosystem Management
- Pemuliharaan Alam Sekitar / Environmental Conservation
- Pengurusan Kepelbagaian Biologi /
Biological Diversity Management

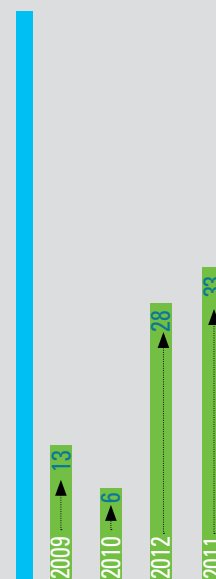

Sarjana Sastera / Master of Arts

- Alam Sekitar dan Pembangunan /
Environment and Development
- Pengurusan Ekosistem Bandar /
Urban Ecosystem Management
- Kajian Dasar Alam Sekitar dan Pembangunan /
Policy Study of Environment and Development

Keperluan bagi governans untuk kelestarian telah meningkat kerana berlakunya perubahan biosfera mengikut masa yang seiring dengan pelbagai peristiwa yang dilakukan oleh aktiviti manusia. Sepanjang tempoh lima puluh tahun, Malaysia telah mengejar pertumbuhan ekonominya terutama untuk menjana perubahan sosio-ekonomi yang lebih luas bagi memberi peluang kepada masyarakat mengecapi kualiti hidup yang lebih baik.

Sebahagian besar negara di Asia-Pasifik masih lagi berusaha untuk mencapai pembangunan. Sehubungan dengan itu pembangunan ekonomi merupakan agenda utama bagi memperolehi kekayaan yang mencukupi untuk membina infrastruktur dan pembangunan sosial yang mantap. Namun begitu, usaha yang dijalankan untuk mencapai pembangunan ekonomi yang kukuh telah memberi kesan kepada sumber asli dan alam sekitar. Dalam kes yang ekstrim, alam sekitar yang dieksploit telah menyebabkan berlakunya kekurangan sumber, kepupusan biodiversiti dan yang pastinya, degradasi alam sekitar.

Semenjak Persidangan Bumi Pertama di Rio de Janeiro, Brazil anjuran Pertubuhan Bangsa-

Bangsa Bersatu pada tahun 1992, kebanyakan negara telah cuba melaksanakan pembangunan lestari sebagai asas kepada proses pembangunan negara, yang sudah pastinya dirangka dan diubahsuai mengikut keperluan setiap negara. Namun begitu secara asasnya, pembangunan lestari mempunyai dimensi untuk pembangunan ekonomi, pembangunan sosial dan pemuliharaan alam sekitar. Dalam konteks ini penyelidikan saintifik adalah perlu untuk menghasilkan pengetahuan asas

bagi mempertingkatkan alat dasar dan membuat keputusan yang akan membantu governans untuk kelestarian. Walau bagaimanapun, apa yang umum di dalam definisi yang dipakai merujuk kepada governans yang merangkumi tradisi, institusi, mekanisme dan proses. Setiap proses termasuk penentuan pilihan awam, formulasi dasar dan membuat keputusan. Institusi menyediakan peranan dan hubungan antara pelbagai pihak berkepentingan atau kumpulan yang berkepentingan. Daripada prinsip di atas, governans

Sungai Segama, Lembah Danum

untuk kelestarian boleh merujuk kepada institusi yang merangkumi aktor dan instrumen di dalam struktur khusus. Mekanisme dan proses governans diselitkan dengan nilai tradisi dan universal yang membentuk sebahagian daripada sistem yang dapat memenuhi keperluan masyarakat tempatan.

Kajian bidang Governans Kelestarian telah menjadi penting bukan sahaja untuk tujuan akademik malahan perlu diterimapakai di dalam proses membuat keputusan. Sedemikian itu, dana ini diwujudkan bagi menyokong kerja-kerja penyelidikan dan kerja

berkaitan untuk memahami isu-isu yang berkaitan dengan governans kelestarian. Ia juga akan digunakan untuk proses penyebaran perjumpaan dan pengetahuan penting penyelidikan selain daripada mempelopori dan membangunkan pendekatan baru, kaedah dan mekanisme terkini dalam bidang kajian ini.

The pursuit of effective governance for sustainability increases due to biospherical changes that have emerged in time, in tandem with the direct result of human activities. Throughout the period of fifty years, Malaysia has been expediting its economic growth especially for generating a vast socioeconomy changes in order to provide opportunities to communities to reach a better quality of life.

A large number of developing countries in Asia Pacific are still actively implementing programmes to achieve development. Concurrently, economic growth becomes the main agenda for ensuring sufficient wealth is obtainable in order to build a strong infrastructure and social development. However, the efforts in reaching a strong economic growth have affected the natural resources and environment at large. In extreme cases, the exploited environment has resulted in the depletion of resources and extinction of biodiversity which in turn evolve to environmental degradation.

Since the first Earth Summit in Rio de Janeiro, Brazil which was organised by the United Nations in 1992, most countries have delved into sustainable development as the foundation in creating the national development processes which are

most definitely framed and modified according to the needs of one's country. Nevertheless, sustainable development basically incorporates dimensions for economic growth, social growth and environmental conservation. In this context, scientific research is inevitable for engendering basic knowledge in order to intensify the policy and decision making instruments that would eventually help the governance for sustainability.

However, the general usage in defining governance reflects to traditions, institutions, mechanism and processes. Each process includes public choice determination, policy formulations and decision makings whilst the institutions prepare the roles and relationships between the stakeholders. From the principle described above, the governance for sustainability could refer to institutions comprising an actor and an instrument in a specific structure. Mechanism and governance processes, in turn, are infused with traditional and universal values to shape parts of the system in order to satisfy the requirements of the local community.

Research on the field of sustainable governance has been increasingly important not only for academic purposes but also due to its significance in the process of decision making. As such, this endowment was established to support the research works and related works in understanding the issues associated to sustainable governance. It also will be used to disseminate research knowledge and findings in meetings and discussions, apart from pioneering and developing new approaches, methods and latest mechanism in this research field.

Tabung Dato' Ismail Awang / [Dato' Ismail Awang Fund](#)

Penyumbang / Contributor
 Keluarga Dato' Ismail Awang /
 Dato' Ismail Awang's Family

Nilai Tajaan / Endowment Fund
 RM 150,000.00

Skim Zamalah Dato' Ismail Awang ditubuhkan bagi membantu pelajar menjalankan aktiviti penyelidikan. Skim ini diwujudkan untuk membina keupayaan penyelidik muda yang cemerlang di Malaysia sebagai generasi pelapis dalam bidang kelestarian hutan. Penyelidik muda yang akan meneraju inisiatif ke arah mencapai taraf negara maju pada tahun 2020 dan untuk memperkukuhkan keupayaan dan kebolehan rakyat Malaysia mencapai hasrat pembangunan seimbang dalam bidang ekonomi dan sosial tanpa menjejaskan alam sekitar dan sumber asli negara.

Pada tahun 2012, LESTARI telah menganjurkan Forum Perhutanan Dato' Ismail Awang Ketiga bertajuk "How Green is Our Ringgit" di Pusat Pengurusan Siswazah pada 19 April 2013. Forum ini dirasmikan oleh Prof. Dato' Dr. Noor Azlan Ghazali, Timbalan Naib Canselor (Hal Ehwal Akademik dan Antarabangsa).

The [Dato' Ismail Awang Zamallah Scheme](#) was established to help graduate students to conduct research activities. The scheme was established to strengthen capabilities and excellence amongst young researchers in Malaysia in the field of Forest Sustainability. These

young researchers will aspire the initiatives towards the attainment of developed country status in year 2020 and thus strengthening the research capability of Malaysians in achieving a balanced development in economy and social fields without damaging the environment or depleting nation's natural resources.

For the year 2012, LESTARI has organised the 3rd Annual Dato' Ismail Awang Forestry Forum titled "How Green is Our Ringgit" at the Centre for Graduate Management building on 19 April 2013 which was officiated by Prof. Dato' Dr. Noor Azlan Ghazali, Deputy Vice-Chancellor (Academic and International Affairs).

Pada tahun 2012, LESTARI telah menawarkan Skim Zamalah LESTARI kepada Firdaus Al-Siddiq bin Fadzil, pelajar doktor falsafah (Alam Sekitar dan Pembangunan) sepenuh masa. Beliau telah ditawarkan skim zamalah untuk tempoh setahun mulai 8 September 2012 hingga 7 September 2013.

Institute for Environment and Development (LESTARI) Zamallah Scheme was established to evoke capability excellence amongst young researchers in Malaysia, being the second echelon. These young researchers will lead the initiatives towards the attainment of developed country status in year 2020 and thus strengthening the research capability of Malaysians in achieving a balanced development in economy and social fields without damaging the environment or depleting nation's natural resources.

For year 2012, LESTARI has offered this zamalah scheme to Firdaus Al-Siddiq bin Fadzil, a fulltime Ph.D student (Environment and Development) for a one year duration starting 8 September 2012 to 7 September 2013.

Skim Zamalah Dato' Syed Muhammad diwujudkan untuk membina keupayaan penyelidik muda yang cemerlang di Malaysia sebagai generasi pelapis yang bakal meneraju inisiatif ke arah mencapai taraf negara maju pada tahun 2020 dan untuk memperkukuhkan keupayaan dan kebolehan rakyat Malaysia mencapai hasrat pembangunan seimbang dalam bidang ekonomi dan sosial tanpa menjejaskan alam sekitar dan sumber asli negara.

Ucapan **TERIMA KASIH** WORD OF THANKS

Jawatankuasa Penerbitan Laporan Tahunan LESTARI
mengucapkan jutaan terima kasih kepada semua pihak
yang telah menyumbang kepada penyediaan Laporan Tahunan
LESTARI 2012, terutama sekali kepada semua warga LESTARI yang
telah menyalurkan mencari maklumat serta membenarkan
penggunaan foto mereka untuk penerbitan Laporan Tahunan ini.

We, the LESTARI Annual Report Publication Committee would
like to express our deepest appreciation and sincere thanks to
those who have contributed their time and effort throughout the
preparation of the LESTARI Annual Report 2012, especially for
all LESTARIans who have assisted in information gathering
and also for taking and allowing the use of their photographs for
this publication.
