Introduction

The 8th Malaysia Geoheritage Conference is a biannual conference that gathers researchers, policy makers and implementers involved in the conservation of geoheritage in Malaysia. The Conference is a venue for sharing as well as gaining knowledge in conserving, protecting and managing geoheritage. This year, the Conference coincides with the 6th Joint Malaysia-Indonesia Geoheritage Conference which is a regional movement of geoheritage conservation.

This Conference is co-organised by the Geological Heritage Group of Malaysia, Geology Programme of the Faculty of Science and Technology, UKM; LESTARI UKM, Faculty of Mineral Technology, Universitas Pembangunan Nasional Veteran, Jogjakarta; Department of Mineral and Geoscience Malaysia and Geological Society of Malaysia.

Objectives

The objectives of this Conference are:

- to enhance understanding on commonly adopted geoheritage value
- to share experiences in development of geoheritage resources
- to strengthen networking in geoheritage conservation and geopark development in the region

Who Should Attend?

- Geoscientists
- Administrators and policy makers
- Social scientists
- Economists and entrepreneurs
- Educationalists
