

IGRT HEAD AND NECK WORKSHOP

Empowering The Future of Radiation Therapy
Together

varian

27th March
28th — 2021

Image-guided Radiotherapy (IGRT) Head and Neck Workshop 2021

The Diagnostic Imaging & Radiotherapy Programme (PDR), Faculty of Health Sciences (FSK) will be organizing a Head & Neck IGRT Workshop 2021 on the 27 & 28 March 2021, through the Zoom online platform. The theme of this workshop is “Let’s empower the future of radiation therapy together”, and is proudly sponsored by Varian.

This workshop is organized in collaboration with a number of public and private institutions of higher learning as well as professional bodies namely Universiti Malaya (UM), Universiti Sains Malaysia (USM), Ministry of Health Training Institute (ILKKM), Management & Science University (MSU), Malaysian Association of Medical Physics (MAMP) and Malaysia Radiographers Society (MRS).

The scientific programme will cover the application of IGRT techniques in clinical practice. Participants will have the opportunity to establish deep understanding into the principles of IGRT and obtain insights from both local and international practitioners. In addition, quality assurance and treatment advancements in the head and neck region will also be discussed. This comprehensive 2-day workshop is aimed to equip radiotherapy personnel particularly the oncologists, medical physicists and radiation therapists with the current knowledge in radiotherapy as well as ensuring safe and effective practice of IGRT.

Numerous distinguished list of international speakers will be featured including expert medical dosimetrist, Mr Kim Tae Yoon (Korea National Cancer Centre, South Korea), world-renowned medical physicist, Prof Ben Heijmen (Cancer Institute of the Erasmus University Medical Centre, Netherlands) and esteemed radiation therapists, Madam Tan Chek Wee and Madam Sarahatul Bahiah Yusoff (National University Hospital, Singapore). In addition, there will be live demo sessions by Varian specialists on Velocity - Multi-Modality Image Registration and Contouring Software and the ARIA® Oncology Information System.

For more information on this workshop and registration, please visit the workshop website at <https://www.ukm.my/pdrukm/igrt-head-neck-2021> or email to igrt2021@gmail.com.
