DEFINISI PERUBATAN MELAYU

- * **Amalan Perubatan Tradisional Melayu merupakan keseluruhan ilmu, kemahiran dan amalan berdasarkan teori, kepercayaan dan pengalaman secara tradisi.**

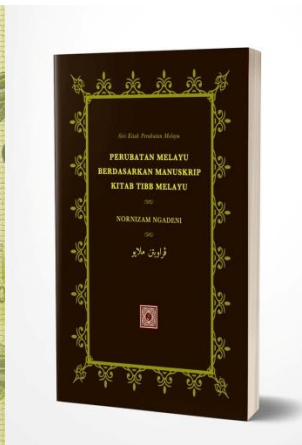

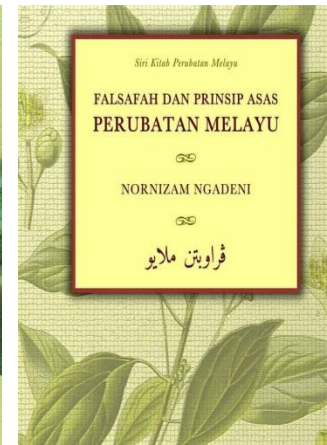

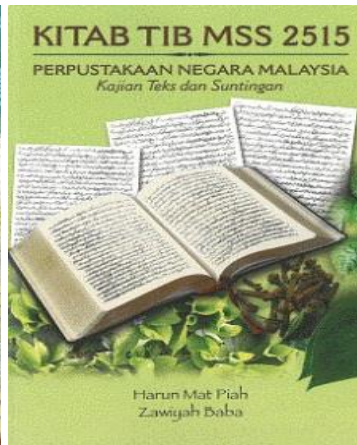

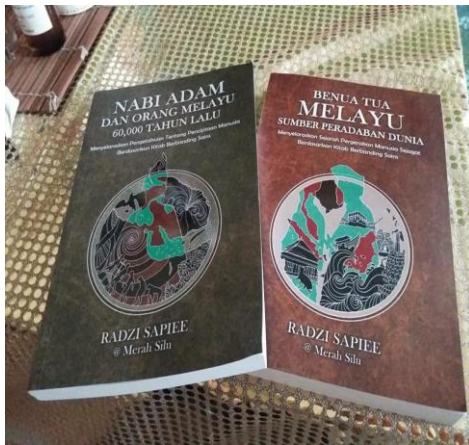

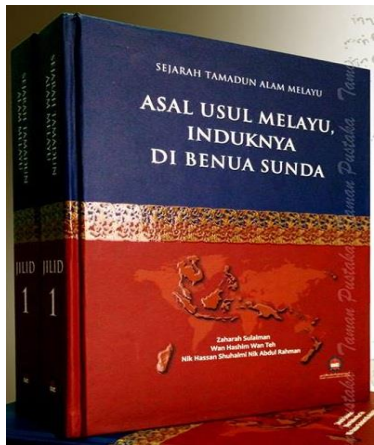

DEFINISI PERUBATAN MELAYU

- * DEMOGRAFI
- * PERBAHANAN
- * PETUA & AMALAN

“Perubatan Tradisional Melayu (PTM) ialah Perubatan Melayu yang diamalkan sejak beberapa abad dahulu. Perubatan ini yang banyak menggunakan bahan-bahan semulajadi bersumberkan tumbuh-tumbuhan/herba dan juga aplikasi semulajadi yang telah diterima secara turun temurun oleh masyarakat Melayu di Malaysia kerana ia merupakan kaedah yang selamat dan tidak memberi kesan sampingan terhadap tubuh badan manusia.”

A Fine-Structural Analysis of Normal and Modulated Cells in Myogenic Cultures

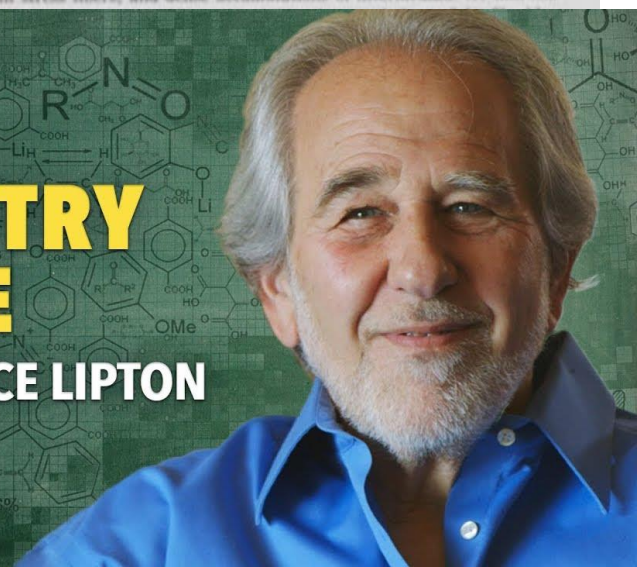

BRUCE H. LIPTON

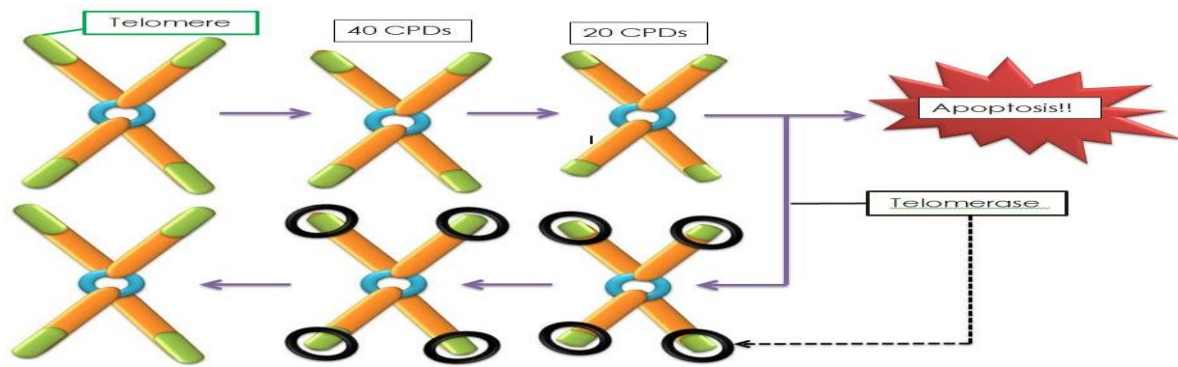

Department of Anatomy, University of Wisconsin, Madison, Wisconsin 53706

Received February 11, 1977; accepted in revised form May 19, 1977

It has formerly been reported that muscle and nonmuscle progenitor cells in clonal culture could be distinguished from one another on the basis of their distinctive morphologies. In light of recent studies critical of this interpretation, this investigation was concerned with identifying whether one could truly discriminate between myoblasts and fibroblast-like cells. The results reveal that not only is cell morphology a reliable criterion, but myoblasts and fibroblasts can also be distinguished on the basis of their fine-structural characteristics. Cytologically, spindle-shaped myoblasts exhibit an unusually dense concentration of free ribosomes and polysomes, a Golgi of variable dimensions, and a paucity of rough endoplasmic reticulum (RER). Flattened, stellate fibroblasts show an extensive elaboration of RER, multiple Golgi complexes, actomyosin stress fibers, and dense accumulations of intermediate (10 nm) fila-

What is Telomerase?

Telomerase is natural enzyme that stabilizes telomere length by adding DNA repeats (TTAGGG) onto the telomeric ends of the chromosomes, thus compensating for the loss of telomeres when cell divide.

Telomerase activation

As cells divide over time...telomeres shorten, and eventually cell division stops.
