

Bachelor of Audiology (Honours)

1. Program Summary

Audiology Program envisions of producing graduates and professionals who work in the field of clinical science involving prevention, assessment, rehabilitation and management of a diverse range of conditions related to hearing and balance disorders, in the pediatric and adult population. UKM has been a pioneer in offering the four-year Bachelor Degree of Audiology (Honours) in the South East Asia region since 1995. The program is accredited by the Malaysian Accreditation Board and meets international standards required to practice as an audiologist.

Underpinned by our experienced teaching faculty members and also our experienced clinicians, throughout the 4-year study, our graduates will acquire adequate foundation knowledge, clinical skills and research experience sufficient for a beginning practitioner working in a variety of health care settings. They undergo clinical practicum in regional hospitals, health care, educational and community institutions under close supervision from qualified audiologists. They also conduct research projects and present their findings in the final year of study. Graduates from this program have recorded a high percentage of employability over the years (ranging from 95-100 %), and our graduates have not only pioneered and ventured in working thought out Malaysia but also in the international market, in health, educational and industrial institutions.

2. Life at the Faculty

Students enrolled in our program will be exposed to a tight-knit health campus members, with opportunities to connect with peers from other health backgrounds programs. Students will also have broad access and opportunity to be involved in extracurricular activities, including activities organised by the Audiology Student Club. The campus is located strategically in the heart of Kuala Lumpur which offers students an opportunity to experience life in the capital city of Malaysia. Various facilities including the library, cafeterias and student lounges are available for the students to study, to have discussion sessions with their peers or to have a break in between lectures. Student accommodation is located near Taman Tasik Tititwangsa an urban recreational park spreading across an area of 95 hectares with 57 hectares of lake. Students will be able relax or exercise at the park if they require a change of scenery. The program also has a tight-knit relationship with the alumni and industrial stakeholders to help mould the students to become a professional in their career pathway.
