FOREWARD

The Faculty of Medicine, UKM offers a wide range of postgraduate training opportunities including doctoral and Master degree programmes, four-year structured postgraduate clinical specialist training programmes and clinical fellowship training programmes in various medical specialties. We pride ourselves in giving the best to our students through high quality academic programmes, optimal infrastructure support and cutting-edge research and technologies to nurture their postgraduate academic journey. The postgraduate secretariat facilitates all academic matters for each of the postgraduate students from initial enrolment until graduation. We constantly strive to improve the quality of services and ensure that the students have the best experience possible.

Prof. Datin Dr. Norlinah Mohamed Ibrahim
Deputy Dean (Postgraduate Studies)

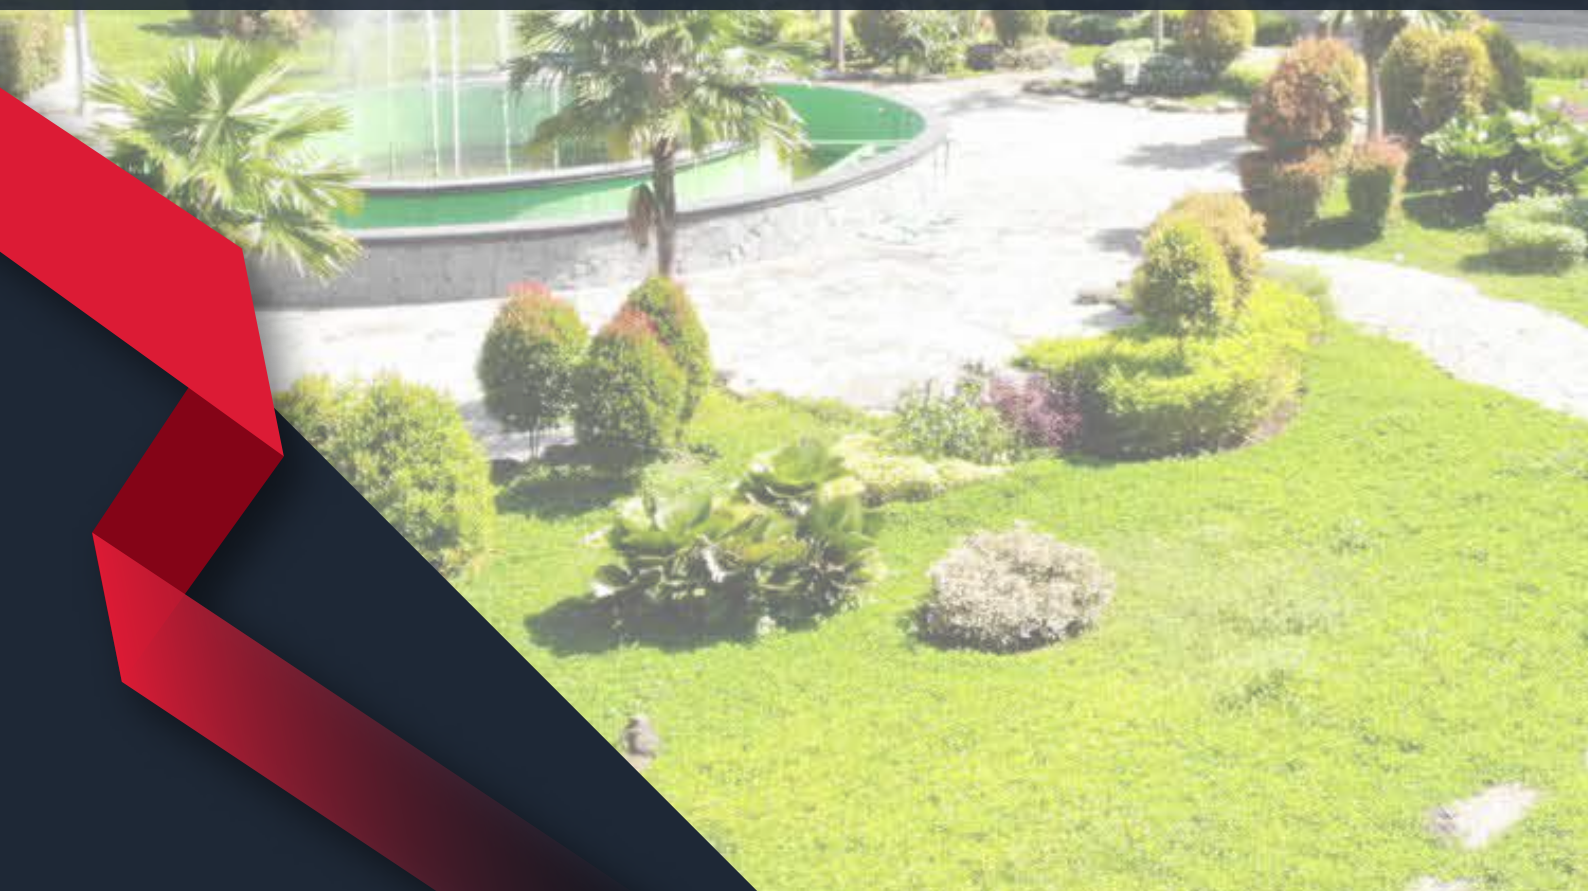

PROGRAMMES/ ACTIVITIES

The top portion of the slide features a background image of a modern building with a grey roof and green walls, set against a bright blue sky with scattered white clouds. A red and black geometric graphic element is positioned in the top right corner.

Briefing and Registration of New Students

New postgraduate students enroll twice a year for both clinical Masters training programs (June and December) and research and mixed mode programs (April and October). As the postgraduate secretariat, it is our task to conduct briefing on every aspect of students' academic journey and life on campus. This year, we organized three online briefings to the new students. We invited panelists which included lecturers and academic officers to share crucial information related to course registration, university regulations and guidelines, and to provide an overview regarding health and library services.

SPS DAY 2023

SPS Open Day was held twice monthly as a mean to break the barrier, so that students and faculty members can reach out any academic matters.

Visit from Universitas Padjajaran, Bandung, Indonesia to the Department of Pathology

Visit from Universitas Padjajaran, Bandung, Indonesia to the Department of Pathology, Faculty of Medicine & Hospital Canselor Tuanku Muhriz, UKM on 26 May 2023 to discuss postgraduate academic and training collaboration.

STUDENT TESTIMONIAL

Dr. Datu Agasi Bin Mohd Kamal **Doctor of Philosophy Physiology**

I am thrilled to share my experience as a proud graduate of the Ph.D. program in Physiology at Physiology Department, Faculty of Medicine UKM. My journey through the Physiology Department at the Faculty of Medicine has been nothing short of exceptional, and I want to take a moment to reflect on this remarkable experience.

From the moment I set foot in this institution, I was captivated by the world of research. One of the most rewarding aspects of my academic journey has been the hands-on laboratory experiences I gained.

The state-of-the-art laboratories and cutting-edge equipment at the Physiology Department provided the ideal backdrop for conducting groundbreaking research. This experience not only sharpened my technical skills but also instilled in me a deep appreciation for the art and science of experimentation.

Dr. Izzah Hazwani Binti Dzulkifli **Master of Family Medicine**

I am incredibly grateful for the opportunity to further my postgraduate study at the Medical Faculty (Master of Family Medicine) of Universiti Kebangsaan Malaysia (UKM).

The experience has been nothing short of transformative. The faculty's commitment to academic excellence, coupled with its state-of-the-art facilities and world-class professors, has enriched my medical education beyond measure.

Throughout my journey here, I've been impressed by the faculty's dedication to nurturing future healthcare professionals. The hands-on clinical training, research opportunities, and emphasis on community outreach have not only broadened my knowledge but also instilled in me a profound sense of responsibility toward society.
