

POSTGRADUATE STUDIES

DEPARTMENT OF PHYSIOLOGY

FACULTY OF MEDICINE

UNIVERSITI KEBANGSAAN MALAYSIA

The Department of Physiology at Universiti Kebangsaan Malaysia (UKM) is a vibrant and forward-thinking academic department dedicated to the study of the intricate mechanisms that regulate the functions of living organisms. The department is a prominent department within the prestigious academic community of UKM and demonstrates its commitment to the advancement of knowledge in the field of physiology through the implementation of innovative research initiatives, comprehensive teaching programmes and active involvement in community outreach activities. Researchers in the department explore a wide range of physiological aspects, from cellular processes to whole body functioning.

Programs

RESEARCH MODE

DOCTOR OF PHILOSOPHY

Duration

| | |
|-----------|---------|
| Full Time | 3 Years |
| Part Time | 4 Years |

Intake

Throughout the year

Fees

Malaysian students

| | |
|---------------------|---------|
| First Semester | RM 5134 |
| Subsequent semester | RM 4124 |

International students

| | |
|---------------------|-----------|
| First Semester | RM 12,470 |
| Subsequent semester | RM 10,760 |

MASTER OF MEDICAL SCIENCES

Duration

| | |
|-----------|---------|
| Full Time | 2 Years |
| Part Time | 3 Years |

Intake

Throughout the year

Fees

Malaysian students

| | |
|---------------------|---------|
| First Semester | RM 4009 |
| Subsequent semester | RM 2999 |

International students

| | |
|---------------------|-----------|
| First Semester | RM 11,375 |
| Subsequent semester | RM 10,325 |

MIXED MODE

MASTER OF MEDICAL SCIENCES (PHYSIOLOGY)

Duration

| | |
|-----------|---------|
| Full Time | 2 Years |
|-----------|---------|

Intake

September

Fees

Malaysian students

| | |
|---------------------|---------|
| First Semester | RM 5340 |
| Subsequent semester | RM 4330 |

International students

| | |
|---------------------|-----------|
| First Semester | RM 13,785 |
| Subsequent semester | RM 12,375 |

Area of Study

-  Cardiovascular Research
-  Reproductive Science
-  Regenerative Medicine : Stem Cell and Tissue Engineering
-  GUT Research
-  Neurophysiology
