

POSTGRADUATE DIPLOMA IN DIETETICS

Programme Synopsis

INTAKE
JULY 2026

The Postgraduate Diploma in Dietetics at Universiti Kebangsaan Malaysia (UKM) is a one-year programme (3 semesters) designed to enhance competencies in health sciences and dietetic practice. Open for nutritionists and didactic students who do not have clinical attachment and nutritionists—whether in service or newly graduated—the programme strengthens practical skills in patient nutritional care, particularly for individuals requiring specialised nutrition support in hospital settings. Graduates are prepared to contribute to quality dietetics services across hospitals, outpatient and community clinics, and may also undertake consultancy roles in nutrition and healthcare.
