

Bachelor of Occupational Therapy (Honours)

1. Program Summary

Occupational Therapy is a healthcare profession that aims on improving, maintaining, and restoring independence and productivity in various areas of occupation amongst individuals who are affected by disability, injury, chronic illness or cognitive impairment. Occupational therapy engages individuals in the concept of self-care, work/productivity, and play/leisure activities to promote participation in daily occupations with the aim to restore the roles of the affected individuals as active contributing members in the society. The study of Occupational Therapy focuses on various disciplines such as paediatrics, geriatrics, psychiatrics, orthopaedics, and physical dysfunction that equips the students with ample knowledge and skills needed as a competent occupational therapy practitioner to assist individuals and patients of all ages and conditions in achieving the best quality of life.

2. Life at the Faculty

Faculty of Health Sciences, UKM is located in the middle of Kuala Lumpur city. The location is very strategic as it is near to public transport facilities, malls, and shops for students' convenience. In addition, the faculty is well-equipped with various facilities such as library, teaching labs, computer labs, and lecture halls, public facilities such as prayer room, ATM machine, convenience store, pharmacy, cafe and canteen. Located in the middle of the campus, the Bookworm Cafe offers a comfortable environment for students to discuss and socialise with friends and lecturers while enjoying tastiest coffee. There are various students' clubs available including the Club of Occupational Therapy Students (COTs) that offer extra-curricular activities. Students will enjoy a meaningful learning experience in the Kuala Lumpur Campus. Student accommodation is located near Taman Tasik Tititwangsa an urban recreational park spreading across an area of 95 hectares with 57 hectares of lake. Students will able relax or exercise at the park if they require a change of scenery. The program also has a tight-knit relationship with the alumni and industrial stakeholders to help mould the students to become a professional in their career pathway.
