

# MICROARRAY

## Updated Trends in Microarray

8<sup>th</sup>  
November

UKM Medical  
Molecular Biology  
Institute

2.00-3.00pm.

### FEATURING

#### Presentation title :

**Axiom Asia Precision Medicine Research Array  
Powerful, Cost Effective Genotyping for All of Asia**

Shantanu manages the world-wide portfolio in microarrays for human genotyping and agrigenomics applications, microarray instruments and automation. He has successfully launched several products including the most recent products for precision medicine – Applied Biosystems Axiom Precision Medicine Research array, Applied Biosystems PharmacoScan.

Shantanu has a M.S. in Biomedical Engineering from Case Western Reserve University, Cleveland OH and a M.B.A from Santa Clara University, Santa Clara CA. His industry experience includes combined 16 years' experience in product development, strategic marketing at Affymetrix, now part of Thermo Fisher Scientific.

**Shantanu Kaushikkar**

Director  
Genotyping and  
agrigenomics
